## Software Copyright Notice

The Motorola products described in this manual may include copyrighted Motorola and third-party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in the Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of the Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any licence under the copyrights, patents, or patent applications of Motorola or any third-party software provider, except for the normal, non-exclusive, royalty-free licence to use that arises by operation of law in the sale of a product.
While Products specifications and features may be subject to change without notice, we are making every possible effort to ensure that user manuals are updated on a regular basis to reflect product functionality revisions. However, in the unlikely event that your manual version does not fully reflect the core functionality of your product, please let us know. You may also be able to access up-to-date versions of our manuals in the consumer section of our Motorola web site, at http://www.motorola.com.

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION. READ THIS INFORMATION BEFORE USING YOUR PHONE.
The information provided in this document supersedes the general safety information in user guides published prior to December 1, 2002.

## Exposure To Radio Frequency (RF) Energy

Your phone contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your phone, the system handling your call controls the power level at which your phone transmits.

Your Motorola phone is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

## Operational Precautions

To assure optimal phone performance and make sure human exposure to RF energy is within the guidelines set forth in the relevant standards, always adhere to the following procedures.

## External Antenna Care

Use only the supplied or Motorola-approved replacement antenna. Unauthorised antennas, modifications, or attachments could damage the phone.
Do NOT hold the external antenna when the phone is IN USE. Holding the external antenna affects call quality and may cause the phone to operate at a higher power level than needed. In addition, use of unauthorised antennas may result in non-compliance with the local regulatory requirements in your country.

Safety and General Information - 5

## Facilities

Turn off your phone in any facility where posted notices instruct you to do so. These facilities may include hospitals or health care facilities that may be using equipment that is sensitive to external RF energy.

## Aircraft

When instructed to do so, turn off your phone when on board an aircraft. Any use of a phone must be in accordance with applicable regulations per airline crew instructions.

## Medical Devices

## Pacemakers

Pacemaker manufacturers recommend that a minimum separation of 6 inches ( 15 centimetres) be maintained between a handheld wireless phone and a pacemaker.
Persons with pacemakers should:

- ALWAYS keep the phone more than 6 inches ( 15 centimetres) from your pacemaker when the phone is turned ON.
- NOT carry the phone in the breast pocket.
- Use the ear opposite the pacemaker to minimise the potential for interference.
- Turn OFF the phone immediately if you have any reason to suspect that interference is taking place.

## Hearing Aids

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

## Other Medical Devices

If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your GP may be able to assist you in obtaining this information.

## Use While Driving

Check the laws and regulations on the use of phones in the area where you drive. Always obey them.
When using your phone while driving, please:

- Give full attention to driving and to the road.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

## Operational Warnings

## For Vehicles With an Air Bag

Do not place a phone in the area over an air bag or in the air bag deployment area. Air bags inflate with great force. If a phone is placed in the air bag deployment area and the air bag inflates, the phone may be propelled with great force and cause serious injury to occupants of the vehicle.

## Potentially Explosive Atmospheres

Turn off your phone prior to entering any area with a potentially explosive atmosphere, unless it is a phone type especially qualified for use in such areas and certified as "Intrinsically Safe." Do not remove, install, or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.
Note: The areas with potentially explosive atmospheres referred to above include fuelling areas such as below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders. Areas with potentially explosive atmospheres are often but not always posted.

8 - Safety and General Information
or playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout.
If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your doctor before playing video games on your phone or enabling a blinkinglights feature on your phone. (The blinking-light feature is not available on all products.)
Parents should monitor their children's use of video game or other features that incorporate blinking lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation.
To limit the likelihood of such symptoms, please take the following safety precautions:

- Do not play or use a blinking-lights feature if you are tired or need sleep.
- Take a minimum of a 15 -minute break hourly.
- Play in a room in which all lights are on
- Play at the farthest distance possible from the screen.

## Repetitive Motion Injuries

When you play games on your phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow these instructions to avoid problems such as tendonitis, carpal tunnel syndrome, or other musculoskeletal disorders:

- Take a minimum 15-minute break every hour of game playing.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after play, stop playing and see a doctor.

## Getting Started

## About This Guide

This guide describes the basic features of your Motorola wireless phone.

## Optional Features

~ロThis label identifies an optional network, SIM card, or subscription-dependent feature that may not be offered by all service providers in all geographical areas. Contact your service provider for more information.

## Optional Accessories

This label identifies a feature that requires an optional Motorola Original ${ }^{\mathrm{TM}}$ accessory.

## Installing the SIM Card

Your SIM (Subscriber Identity Module) card contains your phone number, service details, and phonebook/message memory.
Caution: Do not bend or scratch your SIM card. Avoid exposing your SIM card to static electricity, water, or dirt.

The rechargeable batteries that power this phone must be disposed of properly and may need to be recycled. Refer to your battery's label for battery type. Contact your local recycling centre for proper disposal methods.
Warning: Never dispose of batteries in a fire because they may explode.

## Installing the Battery

Note: If necessary, remove the battery from its protective clear plastic case.

Your phone is designed to use only Motorola Original batteries and accessories. We recommend that you store batteries in their protective cases when not in use.

3

## Battery Use

Battery performance depends on many factors, including your wireless carrier's network configuration; signal strength; the temperature at which you operate your phone; the features and/or settings you select and use; items attached to your phone's accessory connector; and your voice, data, and other application usage patterns.

Caution: To prevent injuries or burns, do not allow metal objects to contact or short-circuit the battery terminals.
To maximise your battery's performance:

- Always use Motorola Original batteries and battery chargers. The phone warranty does not cover damage caused from using non-Motorola batteries and/or battery chargers.
- New batteries or batteries that have been stored for a long time may require a longer charge time.
- Maintain the battery at or near room temperature when charging.
- Do not expose batteries to temperatures below $-10^{\circ} \mathrm{C}\left(14^{\circ} \mathrm{F}\right)$ or above $45^{\circ} \mathrm{C}\left(113^{\circ} \mathrm{F}\right)$. Always take your phone with you when you leave your vehicle.
- When you do not intend to use a battery for a while, store it uncharged in a cool, dark, dry place, such as a refrigerator.
- Batteries gradually wear down and require longer charging times. This is normal. If you charge your battery regularly and notice a decrease in talk time or an increase in charging time, then it is probably time to purchase a new battery.

## Charging the Battery

New batteries are shipped partially charged. Before you can use your phone, you need to install and charge the battery as described below. Some batteries perform best after several full charge/ discharge cycles.

## Action

1 Plug the travel charger into the bottom of your phone.

2 Plug the other end of the travel charger into the appropriate electrical outlet.
3 When your phone indicates Charge Complete, remove the travel charger.

Tip: You can safely leave the travel charger connected to your phone after charging is complete. This will not damage the battery.

## Turning Your Phone On

## Action

1 Press and hold for 2
seconds to turn on the phone.

2 If necessary, enter your SIM card PIN code and press OK ( $\Rightarrow$ ) to unlock the SIM card.
Caution: If you enter an incorrect PIN code 3 times in a row, your SIM card is disabled and your phone displays SIM Blocked.
3 If necessary, enter your 4-digit unlock code and press OK ( $\Leftarrow$ ) to unlock the phone.

## Adjusting Volume

Press the 5-way Navigation key (\%)) left or right to increase or decrease volume.

- increase or decrease earpiece volume during a call
- increase or decrease the ringer volume setting when the home screen is visible
Tip: At the lowest volume setting, press the key left once to switch to vibrate alert. Press it again to switch to silent alert. Press the key right to switch back to vibrate alert, then ring alert.
- turn off an incoming call alert

Alternatively the volume can also be accessed by pressing menu $\square>$ Settings $>$ Ring Styles.

## Making a Call

| Press |  | To |
| :--- | :--- | :--- |
| 1 | keypad keys | dial the phone number |
| 2 |  | end the call and "hang up" the phone <br> when you are finished |
| 3 |  | make the call |

Alternatively access the Phonebook by pressing menu $\square$
$>$ Phone Book > scroll through to required entry > Send (1.).

## Answering a Call

When you receive a call, your phone rings and/or vibrates and displays an incoming call message.

| Press | To |
| :---: | :---: |
| 1 (1.) or ANSWER ( $\rightarrow$ ) | answer the call |
| 2 | end the call and "hang up" the phone when you are finished |

## Viewing Your Phone Number

To view your phone number from the home screen, press
While you are on a call, press $\underset{\underset{z}{ }>\text { My Tel. Numbers. }}{\text {. }}$
Note: Your phone number must be stored on your SIM card to use this feature. To store your phone number on the SIM card, see page 46. If you do not know your phone number, contact your service provider.

## Highlight Features

You can do much more with your phone than make and receive calls! This section describes some of your phone's highlight features.

## Sending a Multimedia Message

A Multimedia Messaging Service (MMS) message contains one or more slides with text and embedded media objects (including pictures, animations, sounds, voice records and/or video clips). You can send the multimedia message to other wireless phone users, and to email addresses.

| Find the Feature | $\square>$ Messages > New Message <br> > New Multimedia Msg |
| :---: | :---: |
| Press | To |
| 1 keypad keys | enter slide text |
|  | Press $\qquad$ to open the MMS Menu and insert a Picture, Voice Record, Sound, Video, New Page, Quick Note, or Contact Info. |
| 2 OK ( $\rightleftharpoons$ ) | store the message |

20 - Highlight Features

| Press | To |
| :---: | :---: |
| 3 (\%) | scroll to a Send To option: <br> - Highlight [One Time Entry] to enter one or more phone numbers and/or email addresses. <br> - Highlight [New Phonehook Entry] to enter a number/address and add it to the phonebook. <br> - Or highlight an existing phonebook entry. |
| 4 SELECT ( $\rightleftharpoons$ ) | select [One Time Entry] or [New Phonebook Entry] and enter a number/address. Press OK ( $\Leftarrow$ ) or DONE $(\approx$ ) when you are finished. |
| or |  |
| ADD ( - ) | add a phonebook entry to the list of recipients. Press DONE $(\leftrightarrows)$ when you are finished. |
| 5 (\%) | scroll to Subject |
| 6 CHANGE ( $\sim$ ) | select Subject |
| 7 keypad keys | enter the subject |
| 8 OK ( $\quad \Longleftrightarrow$ ) | store the subject |
| 9 CHANEE ( $\curvearrowright$ ) | select Attachments |
| 10 - | scroll to Pieture, Sounds or Video |
| 11 SELECT ( $¢$ ¢) | select the file type |
| 12 (\%) | highlight the file you want |

Highlight Features - 21

Attached files are added to the end of the message. To open the attachment, highlight the file indicator/filename and press VIIEW ( $\Rightarrow$ ) (image file type), PLAY ( $\Longleftrightarrow$ ) (sound file or video clip), or OPEN $(\Leftrightarrow)$ (object such as phonebook or datebook entry, or unknown file type).

## Playing Video Clips

You can download video clips with the micro-browser, and send and receive video clips in multimedia messages.
To play a video clip stored on your phone:

| Find the Feature |  |
| :--- | :--- |
| Press | To Multimedia $>$ Videos |
| 1 | scroll to the video clip |
| 2 | PLAY $(\leftarrow)$ |

The video clip displays in the video clip playback screen.

Press $\leftrightarrows$ to open sub-menu

## Learning to Use Your Phone

See page 1 for a basic phone diagram.

## Using the Display

The home screen displays when you are not on a call or using the menu. You must be in the home screen to dial a phone number.

The $\equiv$ (menu) indicator indicates that you can press the menu key $(\square)$ ) to enter the main menu.
Labels at the bottom corners of the display show the current soft key functions. Press the left soft key ( $\leftrightarrows$ ) or right soft key ( $\Leftrightarrow$ ) to perform the function indicated by the left or right soft key label.
Your phone can display an analogue or digital clock in the home screen (see page 66).

24 - Learning to Use Your Phone
Learning to Use Your Phone - 25

## 6. Messaging Presence Indicator

Shows when Instant Messaging (IM) is active. Indicators can include:

$$
\begin{array}{ll}
8=I M \text { active } & =\text { available for } I M \\
x=\text { busy } & =\text { invisible to IM } \\
8=\text { available for phone calls } & z=\text { offline }
\end{array}
$$

When a Java application is active, the (Java midlet) indicator can display in this location.

## 7. Message Indicator

$$
\begin{aligned}
& \text { 觜: } \\
& \text { Displays when you receive a new message. Indicators } \\
& \text { can include: } \\
& P=\text { text message } \\
& \text { (®) = voicemail message } \\
& =\mathrm{IM} \text { message } \quad \odot=\text { active chat session } \\
& \text { (8) }=\text { voicemail and text } \\
& \text { message }
\end{aligned}
$$

When you enter a message, a number in this location shows the number of characters left on the current page (text message), or the message size (multimedia message).

## 8．Location Indicator

Your phone may be able to send location information to the network during an emergency call．Indicators show when your phone is sending location information：

$$
=\text { location on } \quad \text { location off }
$$

## 9．Ring Style Indicator

Shows the ring style setting．
$\Delta_{0,0}=$ loud ring
$s_{0}=$ soft ring
维 $=$ vibrate $s_{0}=$ vibrate and ring
$\&_{s}^{2}=$ silent

## 10．Battery Level Indicator

Vertical bars show the battery charge level．Recharge the battery when Low Battery displays and the battery alert sounds．

## Using the 5－Way Navigation Key

Use the 5 －way navigation key（아） to scroll up，down，left，or right through the menu system，highlight menu items，change feature settings，and play games．Press the
 centre select button to select a highlighted menu item．

28 －Learning to Use Your Phone

## Using Menus

From the home screen，press $\leftrightarrows$ to enter the main menu．

When an option displays a list of possible values，press（o．）left or right to scroll through and select a value．
When an option displays a list of possible numeric values，press a number key to set the value．

## Entering Text

Some features require you to enter information．

Press（o）to scroll to and highlight a menu feature icon in the main menu．The following icons represent features that may appear in the main menu，depending on your service provider and service subscription options．

| Icon | Feature | Icon | Feature |
| :---: | :---: | :---: | :---: |
| ， | Games \＆Apps | 蜀 | Multimedila |
| 8 | Office Tools | $8{ }^{\text {\％}}$ | Settings |
| （0） | IM | 昭 | Web Aceess |
| Q］ | Phonebook | 爮 | Recent Calls |
| $\square$ | Messages |  |  |

Learning to Use Your Phone－ 29

Feature

Press（o．）to scroll up or down to highlight the option you want．
－In a numbered list，press a number key to highlight the option．
－In an alphabetised list，press a key repeatedly to cycle through the letters on the key and highlight the closest matching list option．

## Selecting a Menu Feature

To select a menu feature，starting from the home screen：

## Find the Feature

$$
\rightleftarrows>\text { Recent Calls > Dialled Calls }
$$

This example shows that from the home screen，you must press $\rightarrow$ ，scroll to and select 冩 Recent Calls from the main menu，then scroll to and select Dialled Calls．Press ©o．to scroll，and the leftright soft keys to select the functions listed in the bottom left and right corners of the display．

## Selecting a Feature Option

Some features require you to select an option from a list：

The message centre lets you compose and send text messages．A Character Counter indicates how many more characters will fit in a message．

## Choosing a Text Entry Mode

Multiple text entry modes make it easy for you to enter names， numbers，and messages．The method（for example，iTAP predictive text or TAP input mode）you select remains active until you select another method．
Press $\boldsymbol{F}^{\circ}$ in any text entry screen to select one of the following entry modes：

$$
\begin{array}{ll}
\text { Primary } & \text { The primary text entry mode (see below to set). } \\
\text { Numeric } & \text { Enter numbers only (see page 38). }
\end{array}
$$

## Text Entry Mode Indicators

When you select the Primary or Secondary text entry mode，the following indicators identify the text entry setting：

| Primary | Secondary | Description |
| :---: | :---: | :---: |
| 1 | 2 | Tap，no capital letters |
| 1介 | 2＾ | Tap，capitalise next letter only |
| 14 | ${ }^{24}$ | Tap，all capital letters |
| 罒 | 䀦 | iTAP，no capital letters |
| （1） | 明 | iTAP，capitalise next letter only |
| 甠 | 樶 | iTAP，all capital letters |

The following indicators identify Numeric or Symbol entry mode：
${ }_{123}=$ numeric method $\mathbb{1}$＝symbol method

## Using Tap Method

This is the standard method for entering text on your phone．
Tap method cycles through the letters and number of the key you press．Tap Extended method also cycles through additional symbols as shown in the chart on page 36 ．

| Press | To |
| :---: | :---: |
| 1 A keypad key one or more times | select a letter，number，or symbol |
| 2 keypad keys | enter remaining characters |
|  | Tip：Press（－）．right to accept a word completion，or $*$ to insert a space． |
| 3 OK（ $2=$ ） | store the text |

Symbol Enter symbols only（see page 39）．
Secondary The secondary text entry mode（see below to set）．

Alternatively，you can select a text entry mode in any text entry screen by pressing $\rightleftarrows$＞Entry Mode．

Tip：You can switch between text Entry Methods by pressing（．） whilst in edit mode．

## Setting Up a Text Entry Mode

Press $\leftrightarrows$＞Entry Setup from any text entry screen．Select Primary Setup or Secondary Setup，and choose：

| ITAP | Let the phone predict each word as you <br> press keys（see page 37）． |
| :--- | :--- |
| Tap | Enter letters and numbers by pressing a key <br> one or more times． |
| Tap Extended | Enter letters，numbers，and symbols by <br> pressing a key one or more times． |
| None | Hide the Secondary setting（available only <br> for Secondary Setup）． |

## Using Capitalisation

Press in any text entry screen to change text case．The following indicators show capitalisation status：

$$
\begin{array}{ll}
\mathrm{abc}=\text { no capital letters } & \text { Abc }=\text { capitalise next letter only } \\
\text { ABC } & =\text { all capital letters }
\end{array}
$$

In a text entry screen，you can press \＃\＃）to switch entry modes．If Tap or Tap Extended is not available as the Primary or Secondary entry mode，see page 33.

When you enter text with Tap or Tap Extended method，the soft key functions change．

When you enter 3 or more characters in a row，your phone may guess the rest of the word．For example，if you enter prog you might see：

If you want a different word (such as progress), continue pressing keypad keys to enter the remaining characters.

## Character Chart

Use this chart as a guide for entering characters with Tap Extended method.

| 1-0 |  |
| :---: | :---: |
| 2 ncc | a b c 2 á à â ã ç æ |
| 3 3017 | def 3 é è ê ë |
| 4 cm | ghi4íîi |
| 5 mm | jkl5 |
| 6 mm | m no6 ñ ó ò ô õ œ |
| 7 Fmom | pqrs 7 |
| 8 mov | tuv 8 ú ù û ü |
| 9min | w x y z 9 |
| - | change text case, for capital letters |
| * | enter a space (hold to enter a return) |
| (*) | change text entry mode (hold for default) |

Note: This chart may not reflect the exact character set available on your phone. In an email address or URL editor, first shows common characters for that editor.

## Tap Method Text Entry Rules

- Press a keypad key repeatedly to cycle through its characters.
- Press (-). left or right to move the flashing cursor to the left or right in a text message

36 - Learning to Use Your Phone

## Entering Words

In a text entry screen, you can press $\nabla \rightarrow 0^{*}$ to switch entry modes. An indicator shows which method is active (see page 34). If iTAP method is not available as the Primary or Secondary entry mode, see page 33.

| Press <br> $\mathbf{1}$ <br> keypad keys (one <br> press per letter) |  | To |
| :--- | :--- | :--- |
| $\mathbf{2}$ | Show possible letter combinations at |  |
| $\mathbf{3}$ | SELEGT right | she bottom of the display |
| or | highlight the combination you want <br> lock a highlighted combination <br> You can press keypad keys to add <br> more letters to the end of the <br> combination. |  |
| $*=$ | enter the highlighted combination <br> when it spells a word <br> A space is automatically inserted <br> after the word. |  |

If you enter a word your phone does not recognise, the phone stores it to use as one of your word options. When you fill memory space for unrecognised words, your phone deletes the oldest words to add new words.

## Using Numeric Method

In a text entry screen, press [\#0) to switch entry modes until the ${ }_{123}$ (numeric) indicator displays.
Press keypad keys to enter the numbers you want. When you finish entering numbers, press $\#+0^{*}$ to switch to another entry mode.

- The first character of every sentence is capitalised. If necessary, press down to force the character to lowercase before the cursor moves to the next position.
- If you enter or edit information and do not want to save the changes, press to exit without saving.

## Using iTAP ${ }^{\text {TM }}$ Method

iTAP ${ }^{2}$ software provides a predictive text entry mode that lets you enter a word using one keypress per letter. This can be faster than Tap method, because your phone combines the key presses into common words.
For example, if you press 7 mom 7 mom 6 mmom , letter combinations that match your keypresses display:

If you want a different word (such as Progress), continue pressing keypad keys to enter the remaining characters.

## Using Symbol Method

In a text entry screen, press \#\# to switch entry modes until the @ (symbol) indicator displays.

| Press | To |
| :---: | :---: |
| 1 keypad keys (one press per symbol) | show possible symbol combinations at the bottom of the display |
| 2 - ${ }^{\text {O. }}$ left or right | highlight the combination you want |
| 3 SELECT ( $¢$ ) | lock a highlighted combination |
|  | You can press keypad keys to add more symbols to the end of the combination. |
| or |  |
| * | enter the highlighted combination |

## Symbol Chart

Use this chart as a guide for entering characters with symbol method.

| $1 \times$ | $\begin{aligned} & . ?!, @ 1-\_: ;() \& " \sim 10 \text { i i } \% £ \$ ¥ \mathrm{x} €+x * / \backslash[]= \\ & ><\# § \end{aligned}$ |
| :---: | :---: |
| 2 nec | @ _ 1 B |
| 3007 | 1: ; |
| 4 cm | " \& ' |
| 5 mk | ( ) [] \{ \} |
| 6 mmo | ¿ ${ }^{\sim}$ |
| $7{ }^{7}$ Peas | < > = |
| 8 muv | \$£ $\ddagger$ |
| 98 max | \# \% * |

|  | $+-x^{*} /=><\#$ § |
| :--- | :--- |
| $* *$ | enter a space (hold to enter a return) |
| $* *$ | change text entry mode (hold for default) |

Note: This chart may not reflect the exact character set available on your phone. In an email address or URL editor, $1-0$ first shows common characters for that editor.

## Deleting Letters and Words

Place the cursor to the right of the text you want to delete, and then:

## Action

Press DELETE ( $\leftrightarrows$ ) to delete one letter at a time.
Hold DELETE $(\approx)$ to delete the entire message.

## Using the Handsfree Speaker

When you activate your phone's integrated handsfree speaker, you can talk to the other party without holding the phone to your ear.
Press SPEAKER ( $\Rightarrow$ ) to turn the handsfree speaker on or off while either dialling a call or during a call.
When you turn the handsfree speaker on, your phone displays Speaker On in the home screen. The handsfree speaker remains on until you press SPEAKER ( $\rightleftharpoons$ ) again or turn the phone off.
Note: The handsfree speaker is disabled when you connect your phone to a handsfree car kit or headset accessory.

## Changing a Code, PIN, or Password

Your phone's 4-digit unlock code is originally set to 1234, and the 6 -digit security code is originally set to 000000 . Your service provider may reset these codes before you receive your phone.

40 - Learning to Use Your Phone

## Unlocking Your Phone

Your phone's unlock code is originally set to 1234. Your service provider may reset the unlock code to the last 4 digits of your phone number.
At the Enter Unlock Code prompt:

| Press |  | To |
| :--- | :--- | :--- |
| 1 | keypad keys | enter your unlock code |
| 2 | OK $(\rightleftharpoons)$ | unlock your phone |

## Setting Your Phone to Lock Automatically

You can set your phone to lock every time you turn it off:

| Find the Feature | $>$ Settings $>$ Security $>$ Phone Lock <br> $>$ Automatic Lock $>$ On |
| :--- | :--- |
| Press | To |
| $1 \quad$ keypad keys | enter your unlock code |
| $2 \quad$ OK $(\rightleftharpoons)$ | activate automatic lock |

## If You Forget a Code, PIN, or Password

Your phone's 4-digit unlock code is originally set to 1234, and the 6digit security code is originally set to 000000 . Your service provider may reset the unlock code to the last 4 digits of your phone number before you receive your phone.
If you forget your unlock code, try entering 1234 or the last 4 digits of your phone number. If that does not work, at the Enter Unlock Code prompt:

Learning to Use Your Phone - 41
If your service provider has not reset these codes, we recommend that you change them to prevent others from accessing your personal information. The unlock code must contain 4 digits, and the security code must contain 6 digits.
You can also reset your SIM card PIN code, PIN2 code, and/or call barring password if necessary.
To change a code or password:

## Locking and Unlocking Your Phone

You can lock your phone manually or set the phone to lock automatically whenever you turn it off.
To use a locked phone, you must enter the unlock code. A locked phone still rings or vibrates for incoming calls or messages, but you must unlock it to answer.

You can make emergency calls on your phone even when it is locked (see page 53).

## Locking Your Phone Manually

| Find the Feature | $\begin{aligned} \approx & >\text { Settings }>\text { Security }>\text { Phone Lock } \\ & >\text { Lock Now } \end{aligned}$ |
| :---: | :---: |
| Press | To |
| 1 keypad keys | enter your unlock code |
| 2 OK ( $\Rightarrow$ ) | lock the phone |

| Press | To <br> display the unlock code bypass <br> screen |
| :--- | :--- |
| 2 | keypad keys |
| 3 | OK $(\rightleftharpoons)$ |

If you forget your security code, SIM card PIN code, PIN2 code, or call barring password, contact your service provider.

## Locking and Unlocking the Keypad

You can lock the keypad to prevent accidental key presses (for example, when carrying your phone in a purse or pocket).

| Press | To |
| :--- | :--- |
| $\square *=$ | lock or unlock the keypad |

Note: Incoming calls and messages temporarily unlock the keypad.

## Using the Phonebook

This section briefly describes basic phonebook operations. For more information about using the phonebook, see page 64.
Shortcut: To open your phonebook from the home screen, press (ㅇ). up or down.

## Storing a Phone Number

Enter a phone number in the home screen, then press STORE ( $\Leftrightarrow$ ) to create a phonebook entry with that number. Fill in the other fields to complete the entry.

Select MORE to store another number (for example, a work number) for the same Name.

## Recording a Voice Name

Note: This option is not available for entries stored on the SIM card.
When creating a phonebook entry, scroll to Voice Name and press RECORD ( $\rightleftharpoons$ ). When you are ready, press RECORD ( $\rightleftharpoons$ ) again and say the entry's name (within 2 seconds). When prompted, press $\operatorname{RECORD}(\rightleftharpoons)$ and repeat the name. Press DONE $(\leftrightarrows)$ to store the voice name.

## Storing a Picture for Caller ID

Note: This option is not available for entries stored on the SIM card.
You can store a picture for a phonebook entry. The picture displays when you receive calls from the entry.
When creating a phonebook entry, scroll to Picture and press CHANGE $(\rightleftharpoons)$. Press (-) to select a picture, and press SELEET $(\curvearrowleft)$ to store it for the entry.

## Dialling a Number

Press $\square$ > Phonebook > entry to call $[1$.
Note: You can also access the Phonebook from idle display by pressing ©
Tip: To quickly highlight entries in your Phonebook list: If your entries are sorted by Speed No., press an entry's speed number to highlight it. For example, press $1 \sim 5 \mathrm{~mm}$ for entry number 15 . If your entries are sorted by Name, Voice Name, or Email, enter the first letter of the entry's name to highlight it. For example, press 5 mm 5 mm for the first entry that starts with " K ".

## Voice Dialling a Number

Press $\Longrightarrow$ > Office Tools, press Dialling Services > Voice Dial, and say the entry's name (within 2 seconds).
Tip: To create a shortcut to Voice Dial, press
$\Rightarrow$ > Office Tools > Dialling Services, scroll to Voice Dial, and hold the $\square$. Your phone prompts you to save the shortcut. To use a shortcut, press $\rightleftarrows$ and the shortcut key number.

## Sorting Phonebook Entries

Press $\rightleftarrows>$ Phonebook, press $\rightleftarrows>$ Setup $>$ Sort by, then select whether you want to sort the phonebook list by Name, Speed No., Voice Name, or Email.
When sorting by name, you can view All numbers or just the Primary number for each name. To set the primary number for a name, see page 65.

## Viewing Entries By Category

Press $\Longrightarrow$ > Phonehook, press $\leftrightarrows$ > Categories, then select whether you want to view All entries, entries in a predefined category (Business, Personal, General, VIIPs), or entries in a category you created.
To set the category for a phonebook entry, see page 65.

## Setting Up Your Phone

## Storing Your Name and Phone Number

覴品
To store or edit your name and phone number information on your SIM card:

Find the Feature

> Settings > Phone Status $>$ My Tel. Numbers
 name and phone number.
If you do not know your phone number, contact your service provider.

## Setting the Time and Date

Your phone uses the time and date for the Datebook. Your phone can synchronise its time and date with the network:

To set the time and date manually, set Autoupdate to Off and then set the Time and Date options:
Find the Feature $\quad \square \quad>$ Settings > Initial Setup $\quad \gg$ Time and Date $>$ Time or Date

| Press |  | To |
| :--- | :--- | :--- |
| 1 | scroll to Pieture |  |

## Setting Display Colour

Select the colour palette that your phone uses to display indicators, highlights, and soft key labels.

$$
\text { Find the Feature } \quad \square \quad \begin{aligned}
& >\text { Settings }>\text { Personalise } \\
& >\text { Colour Style }
\end{aligned}
$$

## Adjusting the Backlight

Set the amount of time that the display and keypad backlights remain on.

Find the Feature $\quad \square>$ Settings $>$ Initial Setup $>$ Backlight

## Setting Display Timeout

Set the display to turn itself off when no activity is detected for a specified time.

## Find the Feature <br> > Settings > Initial Setup <br> $>$ Display Timeout

For basic instructions on how to make and answer calls, see page 19.

## Changing the Active Line

Change the active phone line to make and receive calls from your other phone number.
Note: This feature is available only for dual-line-enabled SIM cards.

Find the Feature $\quad \square>$ Settings $>$ Phone Status $>$ Active Line

The active line indicator in the display shows the currently active phone line (see page 26).

## Redialling a Number

| Press |  | To |
| :--- | :--- | :--- | :--- |
| 1 | i. | view the last 10 dialled calls list |
| $\mathbf{2}$ | .- | scroll to the entry you want to call |
| 3 | i. | redial the number |

## Using Automatic Redial

When you receive a busy signal, your phone displays Call Failed, Number Busy.

To redial the phone number:

| Press | To |
| :--- | :--- |
| 1. $\operatorname{or~RETRY~}(\Leftrightarrow)$ | activate automatic redial |

Your phone redials the number. When the call goes through, your phone rings or vibrates one time, displays Redial Successfiul, and then connects the call.

## Using Caller ID

## Incoming Calls

$8:$Calling line identification (Caller ID) displays the phone number for incoming calls in your phone's display.
The phone displays the caller's name (and picture, if available) when the name is stored in your phonebook, or Incoming Call when caller ID information is not available.
You can also set your phone to play a distinctive ringer ID and/or light ID for specific entries stored in your phonebook. For more information, see page 64.

## Outgoing Calls

You can show or hide your phone number as an ID for the calls that you make.

## Find the Feature $\quad \square>$ Settings $>$ In-Call Setup $>$ My Caller ID

You can override the default caller ID setting when you make a call. While dialling (with digits visible in the display):
Press To
$\rightleftarrows>$ Hide ID/Show ID
hide or show your caller ID for the next call
o

## Cancelling an Incoming Call

While the phone is ringing or vibrating:

| Press | To |
| :--- | :--- |
| IGNORE $(\approx)$ | cancel the incoming call |

~ロ
Depending on your phone settings and/or service subscription, the call may be diverted to another number, go directly to your voice-mail, or the caller may hear a busy signal.

## Calling an Emergency Number

Your service provider programs one or more emergency phone numbers, such as 999 , that you can call under any circumstances, even when your phone is locked or the SIM card is not inserted.
Emergency numbers vary by country. Your phone's preprogrammed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

| Press |  | To |
| :--- | :--- | :--- |
| 1 | keypad keys | dial the emergency number |
| $\mathbf{2}$ | 1 | call the emergency number |

## Dialling International Numbers

Press and hold to insert the local international access code (+) for the country from which you are calling.

## Viewing Recent Calls

Your phone keeps lists of the calls you recently received and dialled, even if the calls did not connect. The lists are sorted from newest to oldest entries. The oldest entries are deleted as new entries are added.
Shortcut: Press 1. from the home screen to view the dialled calls list.

| Find the Feature | $\square>$ Recent Calls |
| :---: | :---: |
| Press | To |
| 1 (\%) | scroll to Received Calls or Dialled Calls |
| 2 SELECT ( -2$)$ | select the list |
| 3 (-) | scroll to an entry <br> $\checkmark$ means the call connected. |
| 4 (1a) | call the entry's number |
| or | Press and hold (1. for 2 seconds to send the number as DTMF tones during a call. |
| $\operatorname{VIIEW}(\Leftrightarrow)$ <br> or | view entry details |
| $\square$ | open the Last Calls Menu to view the options avalable for the entry |

The Last Calls Menu can include the following options:

| Option | Description |
| :--- | :--- |
| Store | Create a phonebook entry with the <br> number in the No. field. |
| Delete | Delete the entry. |

54 - Calling Features
Calling Features - 55

To speed dial a phonebook entry:

| Press <br> 1 | keypad keys | To <br> enter the speed dial number for the <br> entry you want to call |
| :--- | :--- | :--- |
| 2 | $\omega .0$ | submit the number |
| 3 | 0 | call the entry |

## Calling With 1-Touch Dial

To call phonebook entries 1 to 9 , press and hold the single-digit speed dial number for one second.

Tip: You must specify which phone number list you want to use with this feature: phone memory phonebook or SIM card phonebook (see page 65).

## Using Voicemail

Voicemail messages that you receive are stored on the network. To listen to your messages, you must call your voicemail phone number.
Your service provider may include additional information about using this feature.

## Listening to Voicemail Messages

## Find the Feature $\quad \square$ Messages > Voicemail

The phone calls your voicemail phone number. If no voicemail number is stored, your phone prompts you to store a number.

## Receiving a Voicemail Message

When you receive a voicemail message, your phone displays the ion (voicemail message) indicator and a New Voicemail notification.

| Press | To |
| :--- | :--- |
| CALL $(\rightleftharpoons)$ | listen to the message |

The phone calls your voicemail phone number. If no voicemail number is stored, your phone prompts you to store a number.

## Storing Your Voicemail Number

If necessary, use the following procedure to store your voicemail phone number on your phone. Usually, your service provider has already done this for you.

| Find the Feature | $>$ Messages |
| :--- | :--- |
|  |  |
| Press To <br> 1 keypad keys |  |
| 2 OK $(\rightleftharpoons)$ | enter your voicemail number |

You cannot store ap (pause), w (wait), or $n$ (number) character in this number. If you want to store a voicemail number with these characters, create a phonebook entry for it. Then, you can use the entry to call your voicemail.

58 - Calling Features

## Announce the Call Transfer

| Find the Feature <br> Press <br> 1 | keypad keys <br> dial the number where you are <br> transferring the call |  |
| :--- | :--- | :--- |
| $\mathbf{2}$ | 6 | call the number and speak to the <br> person who answers |
| $\mathbf{3}$ | open the menu |  |

Do Not Announce the Call Transfer

| Find the Feature | To Transfer |
| :--- | :--- |
| Press dial the number where you are <br> transferring the call  |  |
| 2 | transfer the call |

## Phone Features

## Feature Quick Reference

This section helps you locate features on your phone that are not described in this guide.

## Calling Features

| Feature | Description |  |
| :---: | :---: | :---: |
| Conference Call | During a call: <br> $\square>$ Hold, dial next number, press (1.), press LINX ( $\leftrightarrow$ ) | $\underbrace{n}$ |
| Call Diverting | Set up or cancel call diverting: <br> $\Rightarrow$ > Settings > Call Divert | $\underset{\sim}{\square}$ |
| Call Barring | Restrict outgoing or incoming calls: $\begin{aligned} & \underset{\Xi}{\longrightarrow}>\text { Settings }>\text { Security } \\ & >\text { Call Barring } \end{aligned}$ | $\underline{V}_{\square}^{\underline{\square}}$ |

## Messages

| Feature | Description |  |  |  |
| :--- | :--- | :---: | :---: | :---: |
| Send Text | Send a text message: |  |  |  |
| Message | $>$ Messages $>$ New Message |  |  |  |
| $>$ New Short Msg |  |  |  |  |

| Feature | Description |  |
| :---: | :---: | :---: |
| Send Multimedia Message | Send a multimedia message: <br> $\rightarrow>$ Messages > New Message $>$ New Multimedia Msı | $\underline{q}_{\square}^{n}$ |
| Use MMS Template | Open an MMS template with preloaded media: $\begin{aligned} & \rightarrow \text { > Messages }>\text { New Message } \\ & >\text { MMS Templates } \end{aligned}$ | $\underbrace{q}$ |
| Read Message | Read a new text or multimedia message that you have received: $\text { Press READ }(\Leftrightarrow) \text {. }$ | ${\underset{i n}{i n}}_{\square}^{n}$ |
| Store Message Objects | Go to a multimedia message slide, then: <br> $\rightarrow$ > Store | $\overbrace{\square}^{n}$ |

Instant Messaging

| Feature | Description |
| :---: | :---: |
| Log In | Log in to instant messaging: $\Longrightarrow>\ln >\log \ln$ |
| Find Others Online | After you $\log$ in: <br> Select Contact List to see a list of other users. |
| Start Conversation | Start a conversation: <br> From your Contact List, highlight a name in Online Contacts, press $\operatorname{SEND} \operatorname{IM}(\bumpeq)$. |

| Feature | Description |
| :--- | :--- |
| Open Active <br> Conversation | Open a conversation in <br> progress: <br> From your Contact List, highlight a <br> name in Conversations, press <br> VIEW ( |
| End Conversation | From the conversation display: <br> Log Out |
| Log out of instant messaging: <br> Select Lon Out from the IM Online <br> menu. |  |

## Chat

| Feature | Description |  |
| :---: | :---: | :---: |
| Start Chat | Start a new chat session: $\qquad$ > Office Tools > Chat $\qquad$ $>$ New Chat |  |
| Receive Chat Request | When you receive a chat request: <br> Press ACCEPT ( $\Leftrightarrow$ ) or IGNORE ( $\leftrightarrows$ ). |  |
| End Chat | During a chat session: $\qquad$ > End Chat |  |

## Phonebook

| Feature | Description |
| :---: | :---: |
| Create Entry | Create a new phonebook entry: <br> Type in telephone number <br> > Store > enter other details |
| Create Group Mailing List | Create a group mailing list as a phonebook entry: $\qquad$ > Phonebook $\qquad$ > New > Mailing List |
| Dial Number | Call a number stored in the phonebook: $\qquad$ > Phonebook, highlight the phonebook entry, press $\qquad$ to call |
| Voice Dial Number | Voice dial a number stored in the phonebook: <br> > Office Tools > Dialling Services > Voice Dial <br> When prompted, say the entry's name (within 2 seconds). |
| Set Ringer ID for Entry | Assign a distinctive ringer alert to a phonebook entry: <br> $\rightleftarrows>$ Phonebook > entry <br> $\Longrightarrow$ > Edit > Ringer II > ringer name <br> Note: The Ringer ID option is not available for entries stored on the SIM card. |

[^0]
## Personalising Features

| Feature | Description |
| :---: | :---: |
| Ring Style | Change the ring alert for an event: $\begin{aligned} & \Rightarrow>\text { Settings }>\text { Ring Styles }>\text { style Detail } \\ & >\text { select chosen alerts } \end{aligned}$ |
| Ringer IDs | Activate distinctive ring alerts assigned to phonebook entries: <br> $\Rightarrow$ > Settings > Ring Styles > style Detail $>$ Ringer IDs |
| Ring Volume | Set ringer volume: $\qquad$ > Settings > Ring Styles > style Detail $>$ Ring Volume <br> Shortcut: Press right or left in the home screen. |
| Keypad Volume | Set keypad keypress volume: $\qquad$ > Settings > Ring Styles > style Detail > Key Volume |
| Clock View | Display an analogue clock or digital time readout in the home screen: $\qquad$ > Settings > Personalise > Home Screen > Clock |
| Menu View | Display the main menu as graphic icons or as a text-based list: <br> $\Longrightarrow$ > Settings > Personalise > Main Menu $>$ View |
| Main Menu | Reorder your phone's main menu: $\qquad$ > Settings > Personalise > Main Menu $>$ Reorder |

| Feature | Description |
| :---: | :---: |
| Set Picture ID for Entry | Assign a picture to display when you receive calls from an entry: $\qquad$ > Phonebook > entry $\qquad$ > Edilit > Picture > picture <br> Note: The Picture option is not available for entries stored on the SIM card. |
| Set Category for Entry | Set the category for a phonebook entry: $\qquad$ > Phonebook > entry $\qquad$ > Edilit > Category > category name <br> Note: The Category option is not available for entries stored on the SIM card. |
| Set Category View | Set a phonebook category view: $\qquad$ > Phonebook $\qquad$ > Categories > category view |
| Sort Phonebook List | Set the order in which phonebook entries are listed: $\qquad$ > Phonebook $\qquad$ > Setup > Sort by > sort order |
| Set Primary Number | Set the primary number for a phonebook entry with multiple numbers: $\qquad$ > Phonebook, scroll to entry, press $\qquad$ $>$ Set Primary > phone number |
| 1-Touch Dial | Set 1-touch dial to call entries stored in your phone memory phonebook or the SIM card phonebook: $\qquad$ $>$ Settings > Initial Setup > 1-Touch Dial |

Phone Features - 65

| Feature | Description |
| :--- | :--- |
| Change Soft Key <br> Labels | Change soft key labels in the home screen <br> $\gg$ Home Keys |
| Shortcuts | Create a shortcut to a menu item: <br> Highlight the menu item, then press and <br> hold <br> Select a shortcut: <br> S |
| $>$ shortcut name |  |

## Menu Features

| Feature | Description |
| :--- | :--- |
| Language | Set menu language: <br> Master Reset |
| Reset all options except unlock code, |  |
| security code, and lifetime timer: |  |
| $\equiv \gg$ Settings > Initial Setup > Master Reset |  |

## Dialling Features

| Feature | Description |
| :---: | :---: |
| Fixed Dial | When you turn on fixed dialling, you can call only numbers stored in the fixed dial list. <br> Turn fixed dialling on or off: $\qquad$ > Settings > Seeurity > Fixed Dial <br> Use the fixed dial list: $\qquad$ > Office Tools > Dialling Services $>$ Fixed Dial |
| Service Dial | Dial service phone numbers: $\qquad$ $>$ Office Tools > Dialling Services > Service Dial |
| Quick Dial | Your service provider may program your phone with one or more quick dial numbers, such as the customer service number. <br> Dial preprogrammed phone numbers: $\qquad$ > Office Tools > Dialling Services $>$ Quick Dial |

68 - Phone Features

| Feature | Description |
| :--- | :--- |
| DTMF Tones | Activate DTMF tones: |
|  | Send DTMF tones during a call: <br>  <br>  <br>  <br>  <br>  <br> Press number keys. <br> Send stored numbers as DTMF tones <br> during a call: <br> Highlight a number in the phonebook or <br> recent calls lists, then press <br> $>$ Send Tones. |

## Call Monitoring

Network connection time is the elapsed time from the moment you connect to your service provider's network to the moment you end the call by pressing . This time includes busy signals and ringing.
The amount of network connection time you track on your resettable timer may not equal the amount of time for which you are billed by your service provider. For billing information, contact your service provider.

| Feature | Description |
| :--- | :--- |
| Call Times | View call timers: <br> In-Call Timer <br>  <br> $>$ In-Gall Timer |
| Display time or cost information <br> during a call: <br> $\gg$ Recent Calls $>$ Call Times |  |

Phone Features - 69

| Feature | Description |  |
| :---: | :---: | :---: |
| Power-Off Delay (car kit) | Set the phone to stay on for a specified time after the ignition is switched off: $\qquad$ > Settings > Car Settings > Power-Off Delay |  |
| Charger Time (car kit) | Charge the phone for a specified time after the ignition is switched off: <br> $\leadsto>$ Settings > Car Settings <br> $>$ Charger Time |  |

Data and Fax Calls

| Feature | Description |
| :--- | :--- |
| Send Data or Fax | Connect your phone to the <br> device, then place the call <br> through the device application. |
| Receive Data or <br> Fax | Connect your phone to the <br> device, then answer the call <br> through the device application. |
| Talk Then Fax | Connect your phone to the <br> device, enter the number, then <br> press <br> press |

## Network Features

| Feature | Description |
| :--- | :--- |
| Network Settings | View network information and <br> adjust network settings: <br>  <br>  <br> $>$ Settings $>$ Network |

## Personal Organiser Features

| Feature | Description |
| :---: | :---: |
| Create Datebook Event | Create a new datebook event: $\qquad$ > Office Tools > Datebook, highlight the day, press the centre select button, press $\qquad$ $>$ New |
| View or Edit Datebook Event | View or edit event details: $\qquad$ > Office Tools > Datebook, highlight the day, press the centre select button, press VIIEW ( $\Longleftrightarrow$ ) |
| Event Reminder | View event reminder: <br> VIEW ( $\Leftrightarrow$ ) <br> Close event reminder: <br> BACK ( $\leftrightarrows$ ) |
| Set Alarm | Set an alarm: <br> $\square$ > Office Tools > Alarm Clock |
| Turn Off Alarm | Turn off alarm: <br> Press IISABLE $(\leftrightarrows)$ or $\boldsymbol{}$. <br> Set 8-minute delay: <br> Press SNOOZE ( $\Leftrightarrow$ ). |

72 - Phone Features

## News and Entertainment

| Feature | Description |
| :---: | :---: |
| Launch MicroBrowser | Start a micro-browser session: $\qquad$ > Web Access > Browser |
| Download Objects from Web Page | Download a picture, sound, or phone theme from a Web page: <br> Highlight the file, press SELECT ( $\Rightarrow$ ), press STORE ( $\rightleftharpoons$ ). |
| Web Sessions | Select or create a Web session: $\qquad$ $>$ Web Access > Web Sessions |
| Apply Phone Theme | Apply a grouped set of image and sound files to your phone: $\qquad$ > Multimedia > Themes $>$ theme |
| Download Game or Application (micro-browser) | Download a Java game or application with the microbrowser: $\qquad$ > Web Access > Browser, highlight the application, press SELECT ( $\Leftarrow$ ), press DWNLOAD ( $\Leftarrow$ ) |
| Download Game or Application (computer) | Download a Java game or application from a computer: <br> Connect your phone to the computer, press $\rightleftarrows>$ Settings > Java Settings > Java App Loader. |

| Feature | Description |
| :---: | :---: |
| Calculator | Calculate numbers: <br> $\leftrightarrows \gg$ Office Tools > Calculator |
| Currency Converter | Convert currency: $\qquad$ $>$ Office Tools > Caleulator $\qquad$ $>$ Exchange Rate <br> Enter exchange rate, press ok ( $\Leftrightarrow$ ), enter amount, and select $\$$ in the bottom of the display. |

## Security

| Feature | Description |
| :--- | :--- |
| SIM PIN | Lock or unlock the SIM card: <br> Caution: If you enter an incorrect PIN <br> code 3 times in a row, your SIM card is <br> disabled and your phone displays <br> SIM Blocked. |
| Lock Application | Lock phone applications: <br> $\square>$ Settings $>$ Securrity > Lock Application |

| Feature | Description |
| :---: | :---: |
| Launch Game or Application | Launch a Java game or application: $\qquad$ $>$ Games \& Apps, highlight the application, press select ( $\Rightarrow$ ) |
| Manage Pictures | Manage pictures and animations: |
| Manage Sounds | Manage ring tones, sounds that you have composed or downloaded: <br> $\Longrightarrow$ > Multimedia > Sounds |
| Manage Video Clips | Manage video clips: <br> $\leftrightarrows$ > Multimedia > Videos |
| Edit Sounds With MotoMixer | Edit MIDI-based sound files that you can use with your phone: mix file name |
| Create Ring Tones | Create ring tones that you can use with your phone: <br> $\Longrightarrow$ > Multimedia > Sounds > [New iMelody] |

## Specific Absorption Rate Data

## This model phone meets international standards for exposure to radio waves

Your mobile phone is a radio transmitter and receiver. It is designed and manufactured not to exceed limits for exposure to radio frequency (RF) energy. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organisations through periodic and thorough evaluation of scientific studies. The guidelines include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. Under the guidelines for your phone model, the SAR limit is 2.0 W/kg. ${ }^{1}$ Tests for SAR are conducted in accordance with CENELEC ${ }^{2}$ testing procedures using standard operating positions with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a base station, the lower the power output of the phone.

Before a phone model is available for sale to the public, it is tested to confirm compliance with the guidelines. The tests are performed in positions that conform to a uniform testing methodology determined by an expert standards body. The highest SAR value for this model phone when tested for use at the ear is: X.XX W/kg. ${ }^{3}$

While there may be differences between the SAR levels of various phones and at various positions, they all meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.

1 The SAR limit recommended by international guidelines (ICNIRP) for mobile phones used by the public is 2.0 watts/kilogram (W/kg) averaged over ten grams of tissue. The limit incorporates a substantial margin for safety to give additional protection for the public and to account for any variations in measurements.
2 CENELEC is a European Union standards body.
3 Additional related information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product.
