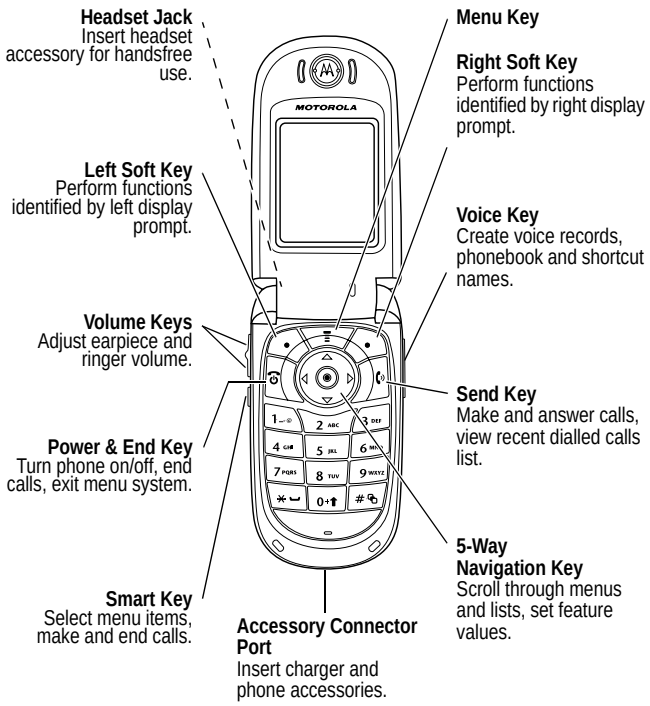
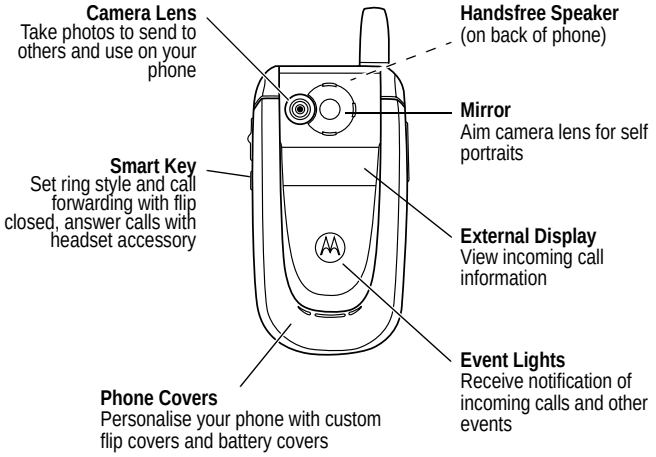
V600UG.book Page 1 Thursday, October 16, 2003 1:23 PM

Welcome

Welcome to the world of Motorola digital wireless communications! We are pleased that you have chosen the Motorola V600 GSM wireless phone.



Check It Out!



Feature	Description
Take Photo	Press **CAMERA** (⌔) to activate the camera, point lens at subject, press **CAPTURE** (⌔) to take a photo.
Send Photo	Send the photo to a phone number or email address: Press **STORE** (⌔) > **Send In Message**

Feature	Description
Set Photo as Picture Caller ID	Assign a photo to a phonebook entry to enable picture caller ID: MENU > **Multimedia** > **Pictures** > *photo* MENU > **Apply As** > **Phonebook Entry**
Send Multimedia Message	Send a multimedia message with pictures, animations, sounds, and videos: MENU > **Messages** > **Create Message** > **New Multimedia Msg**
Send Letter	Send a multimedia letter: MENU > **Messages** > **Create Message** > **New Letter**
Play Video Clip	Play a video clip: MENU > **Multimedia** > **Videos** > *video clip*
Wireless Connection	Set up a Bluetooth™ wireless connection to a headset accessory, car kit, or external device: MENU > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > [**Look For Devices**]
Event Lights	Activate event lights for incoming calls, text and voicemail messages, alarms, and other events: MENU > **Settings** > **Alert Styles** > **Event Lights**

Safety and General Information

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION. READ THIS INFORMATION BEFORE USING YOUR PHONE.

The information provided in this document supersedes the general safety information in user guides published prior to December 1, 2002.

Exposure To Radio Frequency (RF) Energy

Your phone contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your phone, the system handling your call controls the power level at which your phone transmits.

Your Motorola phone is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

Operational Precautions

To assure optimal phone performance and make sure human exposure to RF energy is within the guidelines set forth in the relevant standards, always adhere to the following procedures.

External Antenna Care

Use only the supplied or Motorola-approved replacement antenna. Unauthorised antennas, modifications, or attachments could damage the phone.

Do NOT hold the external antenna when the phone is IN USE. Holding the external antenna affects call quality and may cause the phone to operate at a higher power level than needed. In addition, use of unauthorised antennas may result in non-compliance with the local regulatory requirements in your country.

Phone Operation

When placing or receiving a phone call, hold your phone as you would a wireline telephone.

Body-Worn Operation

To maintain compliance with RF energy exposure guidelines, if you wear a phone on your body when transmitting, always place the phone in a Motorola-supplied or approved clip, holder, holster, case, or body harness for this phone, if available. Use of accessories not approved by Motorola may exceed RF energy exposure guidelines. If you do not use one of the body-worn accessories approved or supplied by Motorola, and are not using the phone held in the normal use position, ensure the phone and its antenna are at least 1 inch (2.5 centimetres) from your body when transmitting.

Data Operation

When using any data feature of the phone, with or without an accessory cable, position the phone and its antenna at least 1 inch (2.5 centimetres) from your body.

Approved Accessories

Use of accessories not approved by Motorola, including but not limited to batteries and antenna, may cause your phone to exceed RF energy exposure guidelines. For a list of approved Motorola accessories, visit our website at `www.Motorola.com`.

RF Energy Interference/Compatibility

Note: *Nearly every electronic device is susceptible to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances your phone may cause interference.*

Facilities

Turn off your phone in any facility where posted notices instruct you to do so. These facilities may include hospitals or health care

facilities that may be using equipment that is sensitive to external RF energy.

Aircraft

When instructed to do so, turn off your phone when on board an aircraft. Any use of a phone must be in accordance with applicable regulations per airline crew instructions.

Medical Devices

Pacemakers

Pacemaker manufacturers recommend that a minimum separation of 6 inches (15 centimetres) be maintained between a handheld wireless phone and a pacemaker.

Persons with pacemakers should:

- ALWAYS keep the phone more than 6 inches (15 centimetres) from your pacemaker when the phone is turned ON.
- NOT carry the phone in the breast pocket.
- Use the ear opposite the pacemaker to minimise the potential for interference.
- Turn OFF the phone immediately if you have any reason to suspect that interference is taking place.

Hearing Aids

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

Other Medical Devices

If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your GP may be able to assist you in obtaining this information.

Use While Driving

Check the laws and regulations on the use of phones in the area where you drive. Always obey them.

When using your phone while driving, please:

- Give full attention to driving and to the road.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

Operational Warnings

For Vehicles With an Air Bag

Do not place a phone in the area over an air bag or in the air bag deployment area. Air bags inflate with great force. If a phone is placed in the air bag deployment area and the air bag inflates, the phone may be propelled with great force and cause serious injury to occupants of the vehicle.

Potentially Explosive Atmospheres

Turn off your phone prior to entering any area with a potentially explosive atmosphere, unless it is a phone type especially qualified for use in such areas and certified as “Intrinsically Safe.” Do not remove, install, or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.

Note: *The areas with potentially explosive atmospheres referred to above include fuelling areas such as below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders. Areas with potentially explosive atmospheres are often but not always posted.*

Blasting Caps and Areas

To avoid possible interference with blasting operations, turn OFF your phone when you are near electrical blasting caps, in a blasting area, or in areas posted "Turn off electronic devices." Obey all signs and instructions.

Batteries

Batteries can cause property damage and/or bodily injury such as burns if a conductive material such as jewellery, keys, or beaded chains touch exposed terminals. The conductive material may complete an electrical circuit (short circuit) and become quite hot. Exercise care in handling any charged battery, particularly when placing it inside a pocket, bag, or other container with metal objects. **Use only Motorola original batteries and chargers.**

Your battery or phone may contain symbols, defined as follows:

Symbol	Definition
	Important safety information will follow.
	Your battery or phone should not be disposed of in a fire.
	Your battery or phone may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.
	Your battery or phone should not be thrown in the trash.
	Your phone contains an internal lithium ion battery.

Seizures/Blackouts

Some people may be susceptible to epileptic seizures or blackouts when exposed to blinking lights, such as when watching television

or playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your doctor before playing video games on your phone or enabling a blinking-lights feature on your phone. (The blinking-light feature is not available on all products.)

Parents should monitor their children's use of video game or other features that incorporate blinking lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation.

To limit the likelihood of such symptoms, please take the following safety precautions:

- Do not play or use a blinking-lights feature if you are tired or need sleep.
- Take a minimum of a 15-minute break hourly.
- Play in a room in which all lights are on.
- Play at the farthest distance possible from the screen.

Repetitive Motion Injuries

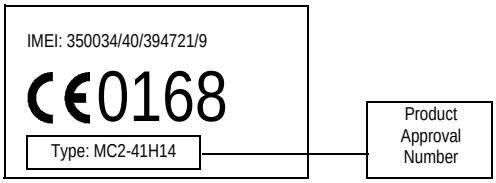
When you play games on your phone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Follow these instructions to avoid problems such as tendonitis, carpal tunnel syndrome, or other musculoskeletal disorders:

- Take a minimum 15-minute break every hour of game playing.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after play, stop playing and see a doctor.

European Union Directives Conformance Statement

Hereby, Motorola declares that this product is in compliance with

- The essential requirements and other relevant provisions of Directive 1999/5/EC
- All other relevant EU Directives



The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (the R&TTE Directive) at www.motorola.com/rtte - to find your DoC, enter the product Approval Number from your product's label in the "Search" bar on the Web site

V600UG.book Page 15 Thursday, October 16, 2003 1:23 PM

Getting Started

About This Guide

This guide describes the basic features of your Motorola wireless phone.

Optional Features

This label identifies an optional network, SIM card, or subscription-dependent feature that may not be offered by all service providers in all geographical areas. Contact your service provider for more information.

Optional Accessories

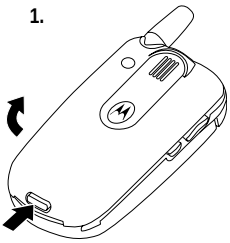
This label identifies a feature that requires an optional Motorola Original™ accessory.

Installing the SIM Card

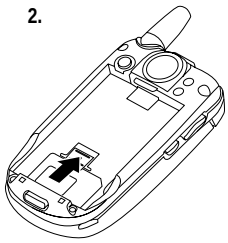
Your SIM (Subscriber Identity Module) card contains your phone number, service details, and phonebook/message memory.

Caution: Do not bend or scratch your SIM card. Avoid exposing your SIM card to static electricity, water, or dirt.

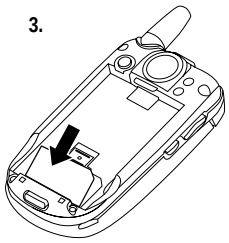
1.



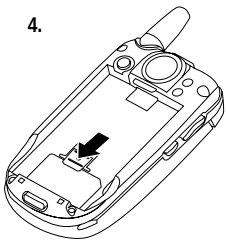
2.



3.



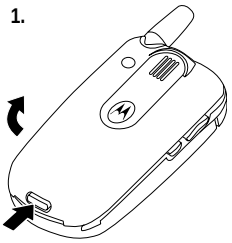
4.



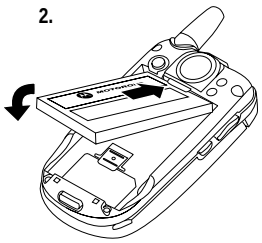
Installing the Battery

Your phone is designed to be used only with Motorola Original batteries and accessories. We recommend that you store batteries in their protective cases when not in use.

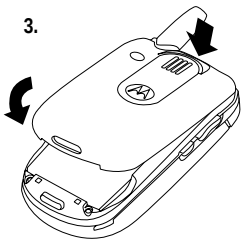
1.



2.



3.



Charging the Battery

New batteries are shipped partially charged. Before you can use your phone, you need to install and charge the battery as described

below. Some batteries perform best after several full charge/ discharge cycles.

	Action	
1	Plug the travel charger into your phone with the release tab facing up.	2	Plug the other end of the travel charger into the appropriate electrical outlet.	
3	When your phone indicates that the battery is fully charged (**Charge Complete**), press the release tab and remove the travel charger.	

Tip: You can safely leave the travel charger connected to the phone for an extended period of time after charging is complete. This will **not** damage the battery.

Battery Use

Battery performance depends on many factors, including your wireless carrier's network configuration; signal strength; the temperature at which you operate your phone; the features and/or settings you select and use; items attached to the phone's accessory connector port; and your voice, data, and other application usage patterns.

Caution: To prevent injuries or burns, do not allow metal objects to contact or short-circuit the battery terminals.

To maximise your battery's performance:

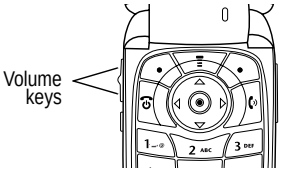
- Always use Motorola Original batteries and battery chargers. The phone warranty does not cover damage caused from using non-Motorola batteries and/or battery chargers.
- New batteries or batteries that have been stored for long periods of time may require a longer charge time.
- Maintain the battery at or near room temperature when charging.
- Do not expose batteries to temperatures below -10°C (14°F) or above 45°C (113°F). Always take your phone with you when you leave your vehicle.
- When you do not intend to use a battery for a while, store it uncharged in a cool, dark, dry place, such as a refrigerator.
- Over extended periods of time, batteries gradually wear down and require longer charging times. This is normal. If you charge your battery regularly and notice a decrease in talk time or an increase in charging time, then it is probably time to purchase a new battery.

The rechargeable batteries that power this product must be disposed of properly and may need to be recycled. Refer to your battery's label for battery type. Contact your local recycling centre for proper disposal methods. Never dispose of batteries in a fire because they may explode.

Turning Your Phone On

	Action	
1	Open your phone	
2	Press and hold for 2 seconds to turn on the phone	
	Action
3	If necessary, enter your SIM card PIN code and press **OK** (-) to unlock the SIM card **Caution:** If you enter an incorrect PIN code 3 times in a row, your SIM card is disabled and your phone displays **SIM Blocked**.
4	If necessary, enter your 4-digit unlock code and press **OK** (-) to unlock the phone

Adjusting Volume



Press the up and down volume keys to:

- increase and decrease earpiece volume during a call
- increase and decrease the ringer volume setting when the home screen is visible (flip must be open)

  Tip: At the lowest volume setting, press the down volume key once to switch to vibrate alert. Press it again to switch to silent alert. Press the up volume key to cycle back to vibrate alert, then ring alert.
- turn off an incoming call alert

Making a Call

	Press	To
1	keypad keys	dial the phone number
2		make the call
3		end the call and "hang up" the phone when you are finished

Tip: You can also close the phone flip to end the call.

Answering a Call

When you receive a call, your phone rings and/or vibrates and displays an incoming call message.

When the phone flip is active, open the phone to answer the call. (To activate, press > **Settings** > **In-Call Setup** > **Answer Options** > **Open to Answer**).

If the phone flip is **not** active:

	Press	To
1	or **ANSWER** ( )	answer the call
2		end the call and "hang up" the phone when you are finished

Viewing Your Phone Number

To view your phone number from the home screen, press .

While you are on a call, press > **My Tel. Numbers**.

Note: *Your phone number must be stored on your SIM card to use this feature. To store your phone number on the SIM card, see page 53. If you do not know your phone number, contact your service provider.*

Highlight Features

You can do much more with your phone than make and receive calls! This chapter describes some of your phone's highlight features.

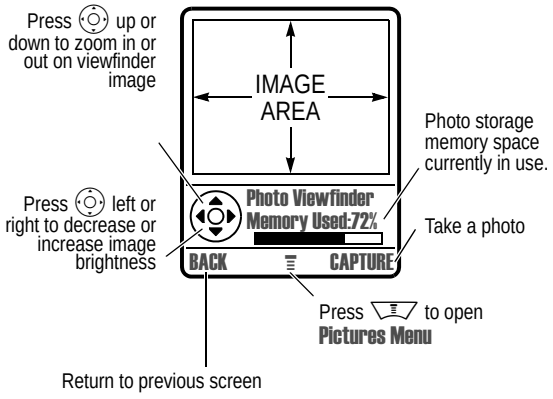
Taking and Sending a Photo

Shortcut: From the home screen, press **CAMERA** (📷) to activate the camera.

To activate your phone's camera:

Find the Feature MENU > **Multimedia** > **Camera**

The active viewfinder image appears on your display.



Point the camera lens at the photo subject, then:

	Press	To
1	**CAPTURE** (⌐)	take a photo
2	**STORE** (⌐)	view storage options
	or	
	DISCARD (⌐)	delete the photo and return to active viewfinder mode
		If you choose to store the photo, continue to step 3.
3	⊙	scroll to **Store Only**, **Apply as Wallpaper**, **Apply as Screen Saver**, **Apply as Phonebook Entry**, or **Send in Message**
4	**SELECT** (⌐)	perform the storage option of your choice

Tip: To take a self portrait: activate the camera, rotate the phone, use the mirror to aim the camera lens, then press the smart key to take a photo.

You may also use the Auto Timed Capture feature to take a self portrait.

Press **CAMERA** > ▽ > select **Auto-Timed Capture** > Press **START**, close the flip use the mirror to aim the camera lens. You will hear the timer count down and your photo will be taken when the timer stops.

When the camera is active, the **Pictures Menu** can include the following options:

Option	Description
Go To Pictures	View pictures and photos stored on your phone.
Auto-Timed Capture	Set a timer for the camera to take a photo.
Delete All	Delete all pictures.
Pictures Setup	Open the setup menu to adjust picture settings.
View Free Space	See how much memory space remains for storing pictures.

Sending a Multimedia Message

A *Multimedia Messaging Service* (MMS) *multimedia message* contains one or more slides with text and embedded media objects (including photos, pictures, animations, sounds, voice records, and/or video clips). You can send the multimedia message to other wireless phone users, and to email addresses.

Find the Feature > **Messages** > **Create Message** > **New Multimedia Msg**

	Press	To
1	keypad keys	enter slide text
2		open the **MMS Menu**
3		scroll to **Insert**
4	**SELECT** ( )	display a list of items you can insert
5		scroll to **Picture**, **Voice Record**, **Sound**, or **Video**

	Press	To
6	**SELECT** (⌐)	select the file type
7	⊙	highlight the file you want
8	**INSERT** (⌐)	insert the file
9	▽	open the **MMS Menu**
10	⊙	scroll to **Insert**
11	**SELECT** (⌐)	display a list of items you can insert
12	⊙	scroll to **New Page**
13	**SELECT** (⌐)	insert a new slide after the current slide Repeat steps 1 to 8 to enter contents for the new slide
14	**OK** (⌐)	store the message
15	**CHANGE** (⌐)	select **To**
16	keypad keys	enter 1 or more phone numbers and/or email addresses
	or	
	BROWSE (⌐)	select numbers/addresses from the phonebook or recent calls lists
17	**OK** (⌐)	store the numbers/addresses
18	**CHANGE** (⌐)	select the **Subject**
19	keypad keys	enter the subject
20	**OK** (⌐)	store the subject
21	**DONE** (⌐)	finish the message and send it immediately

Receiving a Multimedia Message

When you receive a multimedia message or letter, your phone displays the ✉ (message waiting) indicator and a **New Message** notification, and sounds an alert.

Press	To
READ (⌓)	open the message

Multimedia messages that you receive can contain different media objects:

- Inserted photos, pictures, and animations are displayed as you read the message.
- An inserted sound file or video clip begins playing when you scroll to and highlight the sound file or video clip indicator in the message. Use the volume keys to adjust the volume as the sound file or video clip plays.
- Attached files are appended to the message. To open the attachment, highlight the file indicator/filename and press **VIEW** (⌓) (image file type), **PLAY** (⌓) (sound file or video clip), or **OPEN** (⌓) (vObject or unknown file type).

Playing Video Clips

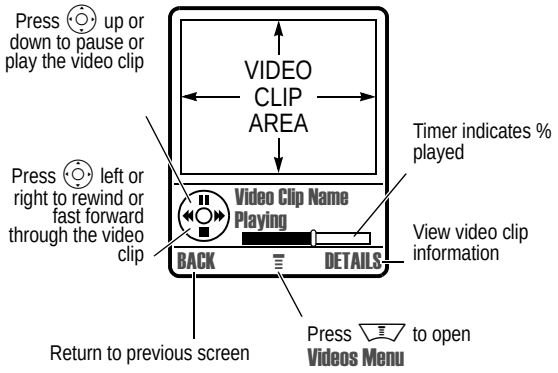
You can download video clips with the micro-browser, and send and receive video clips in multimedia messages.

To play a video clip stored on your phone:

Find the Feature ☰ > **Multimedia** > **Videos**

	Press	To
1	⊙	scroll to the video clip
2	**SELECT** (⌓)	start video clip playback

The video clip appears in the video clip playback screen:



Using Bluetooth Wireless Connections

Your phone supports Bluetooth™ wireless connections. You can set up a wireless link with a Bluetooth-enabled headset accessory, speakerphone, or handsfree car kit, or connect to a computer or hand-held device to exchange and synchronise data.

To connect your phone to a headset accessory or handsfree device:

Find the Feature > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > [**Look For Devices**]

Your phone presents a list of device(s) located within range of the phone. If your phone is already connected to a device, your phone lists the connected device and identifies it with a ✓ (in use) indicator.

To connect to a device, highlight the device name and press **SELECT** (⌓).

The device may request permission to bond with your phone. Select **YES** (⌓) and enter the correct PIN code to create a secure connection with the device. When the connection is made, the (Bluetooth) indicator appears at the top of the display.

Using Event Lights

When event lights are activated, your phone displays a light pattern to notify you of the following events: incoming calls from specific phonebook categories, incoming text and voicemail messages, alarms, power up, power down, battery charging, Bluetooth connect, Bluetooth activity, and Bluetooth disconnect.

To turn event lights on or off:

Find the Feature ☰ > **Setting** > **Ring Styles** > **Event Lights**

	Press	To
1	⊙	scroll to **On** or **Off**
2	**SELECT** (⌓)	select the option

Changing Phone Covers

You can change the flip cover and battery cover on your phone to personalise its appearance. Matching front and back cover sets are available in a variety of colours and designs.

Your phone is designed to be used only with Motorola Original™ accessories. See your Motorola retailer for these replaceable covers.

Removing a Flip Cover

Action	
1 Close your flip phone.	
2 Pull down on both sides of the flip cover to slide the cover off the phone.	
Attaching a Flip Cover

Action	
1 Close your flip phone.	
2 Line up the ridges on each side of the cover so that they align with the slots on the phone.	3 Slide the cover onto the phone until it snaps into place.	

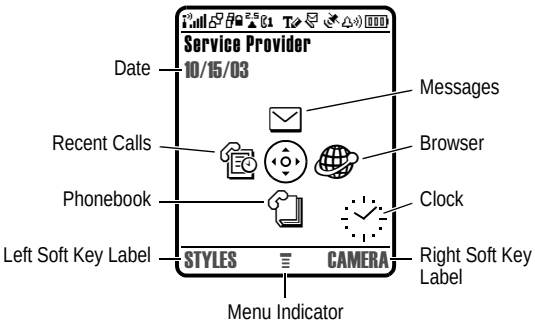
Learning to Use Your Phone

See page 1 for a basic phone diagram.

Using the Display

The *home screen* is displayed when you are **not** on a call or using the menu. You must be in the home screen to dial a phone number.



Press the 5-way navigation key (⊙) left, right, up, or down to select 1 of the menu feature icons in the home screen. If you select a menu icon by mistake, press ⌫ to return to the home screen.

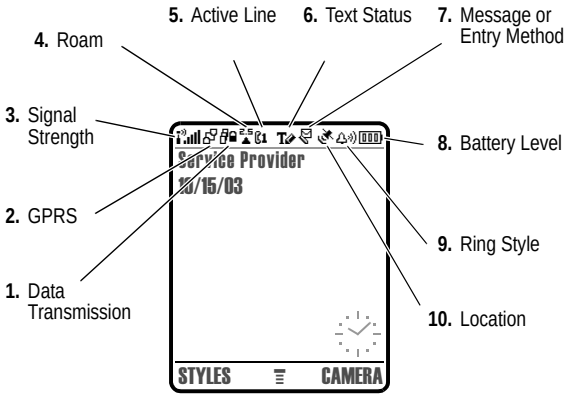
Note: *Your service provider may customise the home screen so that it looks different than the display shown above. For example, your service provider may hide the home screen menu icons to allow a better view of the wallpaper image. You can still select the menu icons when they are hidden from view. To show or hide the menu icons, see page 78.*

The ≣ (menu) indicator in the bottom centre of the display indicates you can press the menu key (⌥≣) to enter the main menu.

Labels at the bottom corners of the display show the current soft key functions. Press the left soft key (⌐) or right soft key (¬) to perform the function indicated by the left or right soft key label.

Your phone can display an analog or digital clock in the home screen. See page 78.

The following status indicators can appear:



1. Data Transmission Indicator Shows connection and data transmission status. Indicators can include:

- = secure packet data transfer
- = unsecure packet data transfer
- = secure application connection
- = unsecure application connection
- = secure *Circuit Switch Data* (CSD) call
- = unsecure CSD call

2. GPRS Indicator Shows that your phone is using a high-speed *General Packet Radio Service* (GPRS) network connection. GPRS allows faster data transfer speeds. Other indicators can include:

= GPRS PDP context active

= GPRS packet data available

3. Signal Strength Indicator Vertical bars show the strength of the network connection. You cannot make or receive calls when the (no signal) indicator or (no transmit) indicator is displayed.

4. Roam Indicator Shows when your phone is seeking or using another network outside your home network. Indicators can include:

= 2G home

= 2G roam

5. Active Line Indicator Shows or to indicate the current active phone line. Other indicators can include:

= line 1 active, call forward on

= line 2 active, call forward on

= alarm activated

6. Text or IM Status Indicator Shows text entry method or case when you are in a text entry screen:

@ = symbol method

123 = numeric method

= text method

= Tap method

iTAP method	no capital letters
Abc = capitalise next letter only	ABC = all capital letters

When instant messaging is active:

= IM active	= available for IM
= busy	= invisible to IM
= available for phone calls	= offline

When a Java application is active, a (java midlet) indicator can display in this location.

7. Message or Text Entry Method Indicator Displays when you receive a new message. Indicators can include:

= text message	= voicemail message
= voicemail and text message	= answering machine
= IM message	= active chat session

When you enter a multimedia message, a number in this location indicates the size of the message.

In a text entry screen, an indicator shows the text entry method—**Primary** or **Secondary**:

Primary	Secondary	
1	2	Tap, no capital letters
1⇧	2⇧	Tap, capitalise next letter only

1	2	Tap, all capital letters
1	2	iTAP, no capital letters
1	2	iTAP, capitalise next letter only
1	2	iTAP, all capital letters

8. Battery Level Indicator Vertical bars show the battery charge level. Recharge the battery when **Low Battery** displays and the battery alert sounds.

9. Ring Style Indicator Shows the ring style setting.

= loud ring = soft ring

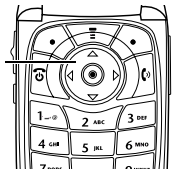
= vibrate = vibrate and ring

= silent

10. Location Indicator Your phone may be able to send location information to the network during an emergency call. Indicators show when your phone is sending location information:

= location on = location off

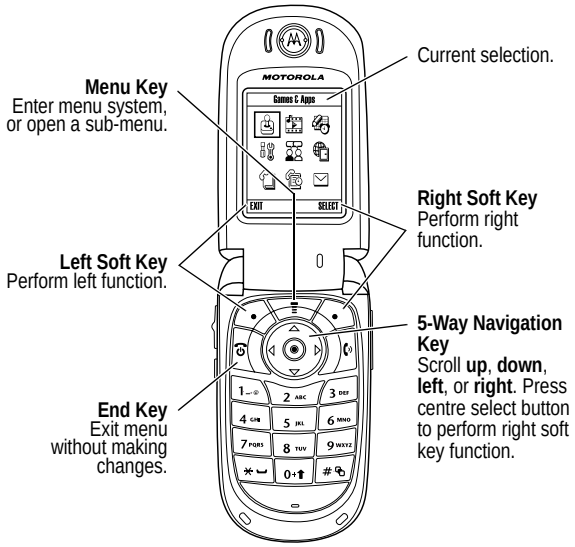
Using the 5-Way Navigation Key



Use the 5-way navigation key (⊙) to scroll up, down, left, or right through the menu system, highlight menu items, change feature settings, and play games. Press the *centre select* button to select a highlighted menu item. The centre select button usually performs the same function as the right soft key (⌓).

Using Menus

From the home screen, press ⊽ to go to the main menu.



Press ⊙ to scroll to and highlight a menu feature icon in the main menu. The following icons represent features that may appear in the main menu, depending on your service provider and service subscription options.

Menu Icon	Feature	Menu Icon	Feature
	Games & Apps		Multimedia
	Tools		Settings

Menu Icon	Feature	Menu Icon	Feature
	IM		Web Access
	Phonebook		Recent Calls
	Messages		Chat

Selecting a Menu Feature

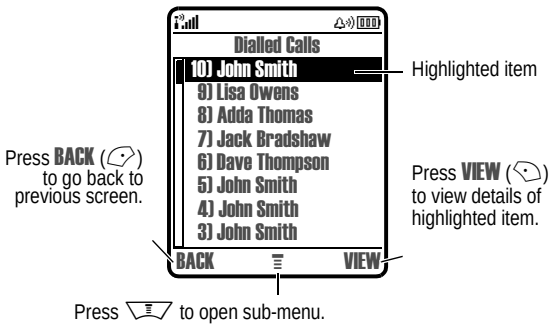
This guide shows you how to select a menu feature as follows, starting from the home screen:

Find the Feature MENU > Recent Calls > Dialled Calls

This example shows that from the home screen, you must press MENU, scroll to and select **Recent Calls** ( ) from the main menu, then scroll to and select **Dialled Calls**. Use NAV to scroll, and the left/right soft keys to select the functions listed in the bottom left and right corners of the display.

Selecting a Feature Option

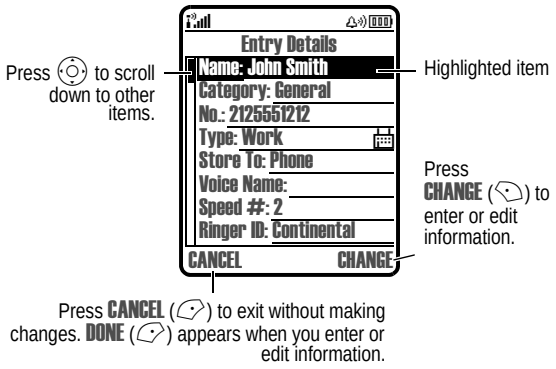
Some features require you to select an item from a list:



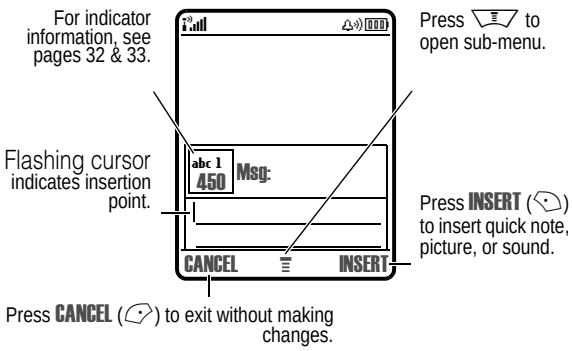
- Press ⊙ to scroll up or down to highlight the item you want.
- In a numbered list, press a number key to highlight the item.
- In an alphabetised list, press a key repeatedly to cycle through the letters on the key and highlight the closest matching list item.
- When an item has a list of possible values, press ⊙ to the left or right to scroll through and select a value.
- When an item has a list of possible numeric values, press a number key to set the value.

Entering Text

Some features require you to enter information:



The message centre lets you compose and send text messages. A *flashing cursor* shows where text will appear:



Choosing a Text Entry Method

Multiple text entry methods make it easy for you to enter names, numbers, and messages. The method you select remains active until you select another method.

Press # in any text entry screen to change to one of the following entry methods:

Primary	The primary text entry method (see below to set)
Numeric (123)	Enter numbers only (see page 46).
Symbol (@)	Enter symbols only (see page 44).
Secondary	The secondary text entry method (see below to set)

Alternatively, you can select a text entry method in any text entry screen by pressing > **Entry Mode**.

Using Capitalisation

Press 0+ in any text entry screen to change text case. The following indicators show capitalisation status:

abc = no capital letters

ABC = all capital letters

Abc = capitalise next letter only

Setting Up a Text Entry Method

Press MENU > **Entry Setup** from any text entry screen. Select **Primary Setup** or **Secondary Setup**, and choose:

None	Hide the **Secondary** setting (only available for **Secondary Setup**).
iTAP	Let the phone predict each word as you press keys (see page 42).
Tap	Enter letters and numbers by pressing a key one or more times (see page 39).
Tap Extended	Enter letters, numbers, and symbols by pressing a key one or more times (see page 39).

Using Tap Method

This is the standard method for entering text on your phone.

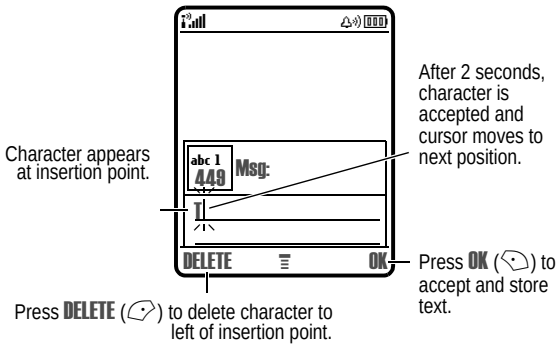
Regular **Tap** method cycles through the letters and number of the key you press. **Tap Extended** method also cycles through additional symbols as shown in the “Character Chart” on page41.

	Press	To
1	A keypad key one or more times	select a letter, number, or symbol

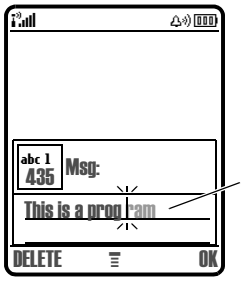
	Press	To
2	Keypad keys	enter remaining characters **Tip:** Press ⊙ to the right to accept a word completion, or *⌣ to insert a space.
3	**OK** (⌐)	store the text

In a text entry screen, you can press #↹ to switch entry methods. An indicator shows which method is active (see page 33). If **Tap** or **Tap Extended** is not available as the **Primary** or **Secondary** entry method, see page 39.

When you enter text with the **Tap** or **Tap Extended** method, the soft key functions change:



When you enter 3 or more characters in a row, your phone may guess the rest of the word. For example, if you enter **prog** you might see:



Press right to accept the word, or press * to reject it and enter a space after **prog**.

If you want a different word (such as **progress**), continue pressing keypad keys to enter the remaining characters.

Character Chart

Use this chart as a guide for entering characters with the **Tap Extended** method.

1	. 1 ? ! , @ _ & ~ : ; " - ( ) ' ¿ ¡ % £ $ ¥ ¤ +€x * / \ [ ] = > < # §
2 ABC	a b c 2 ä å á à â ã α β ç
3 DEF	d e f 3 δ ë é è ê ϕ
4 GHI	g h i 4 ï í î γ
5 JKL	j k l 5 λ
6 MNO	m n o 6 ñ ö ø ó ò ô õ ω
7 PQRS	p q r s 7 π ß σ
8 TUV	t u v 8 θ ü ú ù û

9 wxyz	w x y z 9 ξ ψ
0+	*change text case, for capital letters*
*	*enter a space (hold to enter a return)*
#	*change text entry method (hold for default)*

Note: *This chart may not reflect the exact character set available on your phone. In an email address or URL editor,* 1 *first shows the common characters for that editor.*

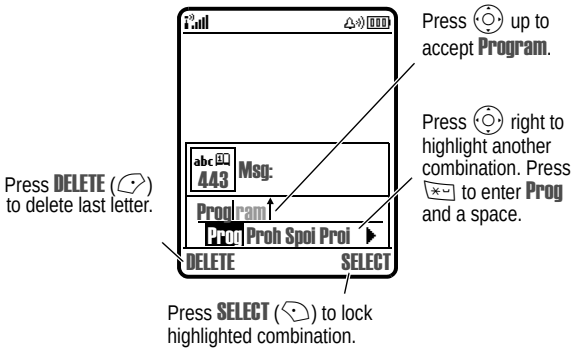
Tap Method Text Entry Rules

- Press a keypad key repeatedly to cycle through its characters.
- After 2 seconds, the character is accepted, and the cursor moves to the next position.
- Press left or right to move the flashing cursor to the left or right in a text message.
- The first character of every sentence is capitalised. If necessary, press down to force the character to lowercase before the cursor moves to the next position.
- If you enter or edit information and do not want to save the changes, press to exit without saving.

Using iTAP™ Method

iTAP™ software provides a predictive text entry method that lets you enter a word using a single keypress per letter. This can be faster than **Tap** method, because your phone combines the keypresses into common words.

For example, if you press 7 PQRS 7 PQRS 6 MNO 4 GHI, letter combinations that match your keypresses appear:



If you want a different word (such as **Progress**), continue pressing keypad keys to enter the remaining characters.

Entering Words

In a text entry screen, you can press # to switch entry methods. An indicator tells you which method is active (see page 33). If **iTAP** method is not available as the **Primary** or **Secondary** entry method, see page 39.

	Press	To
1	Keypad keys (one press per letter)	show possible letter combinations at the bottom of the display
2	left or right	highlight the combination you want

	Press	To
3	**SELECT** (⌔)	lock a highlighted combination You can press keypad keys to add more letters to the end of the combination.
	or	
	⌨	enter the highlighted combination when it spells a word A space is automatically inserted after the word.

If you enter a word your phone does not recognise, the phone stores it to use as one of your word options. When you fill memory space for unrecognised words, your phone deletes the oldest words to add new words.

Using Symbol Method

In a text entry screen, press ⌨ to switch entry methods until you see the @ (symbol) indicator in the status bar.

	Press	To
1	Keypad keys (one press per symbol)	show possible symbol combinations at the bottom of the display
2	⊙ left or right	highlight the combination you want

	Press	To
3	**SELECT** (⌓)	lock a highlighted combination You can press keypad keys to add more symbols to the end of the combination.
	or	
	✱	enter the highlighted combination

Symbol Chart

Use this chart as a guide for entering characters with symbol method.

1	. ? ! , @ _ & ~ : ; " - ( ) ' ¿ ¡ % £ $ ¥ ¤ €
2 ABC	@ _ \
3 DEF	/ : ;
4 GHI	" & '
5 JKL	( ) [ ] { }
6 MNO	¿ ¡ ~
7 PQRS	< > =
8 TUV	$ £ ¥ ¤ €
9 WXYZ	# % *
0+	+ - x * / = > < # §
✱	*enter a space (hold to enter a return)*
#	*change text entry method (hold for default)*

Note: *This chart may not reflect the exact character set available on your phone. In an email address or URL editor,* 1 *first shows the common characters for that editor.*

Using Numeric Method

In a text entry screen, press # to switch entry methods until you see the **123** (numeric) indicator in the status bar.

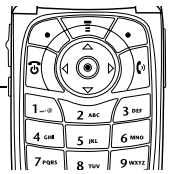
Press keypad keys to enter the numbers you want. When you finish entering numbers, press # to switch to another entry method.

Deleting Letters and Words

Place the cursor to the right of the text you want to delete, and then:

Action
Press **DELETE** (⌫) to delete 1 letter at a time
Hold **DELETE** (⌫) to delete the entire message

Using the Smart Key



The smart key gives you another way to perform many basic phone functions. It anticipates the next action you are likely to perform. For example, when you highlight a menu item, you can press the smart key to select it. You can use the smart key to make and end calls, turn features on and off, and open your phonebook. The smart key usually performs the same function as the right soft key (⌝).

Tip: To take a self portrait: activate the camera, close the flip, use the mirror to aim the camera lens, then press the smart key to take a photo.

Using the External Display

When the flip is closed, the external display shows time, date, and phone status information. It also displays messages to notify you of incoming calls and other events. You can perform the following functions in the external display.

Setting Phone Ring Style

	Press	To
1	volume keys	scroll to **Style**
2	smart key	select a ring style
3	volume keys	return to the home screen

Adjusting Voice Call Diverting

Tip: You must store a diverting number to use this feature.

	Press	To
1	volume keys	scroll to **Divert**
2	smart key	select **All Calls** or **Off**
3	volume keys	return to the home screen

Return an Unanswered Call

Your phone keeps a record of your unanswered calls and displays **X Missed Calls** in the external display.

	Press	To
1	smart key	see the received calls list
2	volume keys	select a call to return
3	smart key	make the call

Note: *Because the microphone and earpiece are unavailable when the phone is closed, you must use a headset or other handsfree device with this feature.*

Using the Handsfree Speaker

When you activate your phone's integrated handfree speaker, you can talk to the other party without holding the phone to your ear.

Press **SPEAKER** (⌓) to turn the handfree speaker on or off during a call. A loud alert confirms activation/deactivation.

When you turn the handfree speaker on, your phone displays **Speaker On** in the home screen. The handfree speaker remains on until you press **SPEAKER** (⌓) again or turn the phone off.

Note: *The handfree speaker is disabled when you connect your phone to a handsfree car kit or headset accessory.*

Changing a Code, PIN, or Password

Your phone's 4-digit unlock code is originally set to 1234, and the 6-digit security code is originally set to 000000 at the factory. Your service provider may reset these numbers before you receive your phone.

If your service provider has **not** reset these numbers, we recommend that you change them to prevent other users from

accessing your personal information. The unlock code must contain 4 digits, and the security code must contain 6 digits.

You can also reset your SIM card PIN code, PIN2 code, and/or call barring password if necessary.

To change a code or password:

Find the Feature > Settings > Security > New Passwords

Locking and Unlocking Your Phone

You can lock your phone manually or set the phone to lock automatically whenever you turn it off.

To use a locked phone, you must enter the unlock code. A locked phone still rings or vibrates for incoming calls or messages, **but you must unlock it to answer**.

You can make emergency calls on your phone even when it is locked. See page 60.

Locking Your Phone Manually

Find the Feature > Settings > Security > Phone Lock > Lock Now

	Press	To
1	keypad keys	enter your unlock code
2	OK (⊙)	lock the phone

Unlocking Your Phone

Tip: Your phone's unlock code is originally set to 1234 at the factory. Many service providers reset the unlock code to the last 4 digits of your phone number.

At the **Enter Unlock Code** prompt:

	Press	To
1	keypad keys	enter your unlock code
2	**OK** (⌓)	unlock your phone

Setting Your Phone to Lock Automatically

You can set your phone to lock every time you turn it off:

Find the Feature ☰ > **Settings** > **Security** > **Phone Lock** > **Automatic Lock** > **On**

	Press	To
1	keypad keys	enter your unlock code
2	**OK** (⌓)	activate automatic lock

If You Forget a Code, PIN, or Password

Note: *Your phone's 4-digit unlock code is originally set to 1234, and the 6-digit security code is originally set to 000000 at the factory. Many service providers reset the unlock code to the last 4 digits of your phone number before you receive your phone.*

If you forget your unlock code, try entering 1234 or the last 4 digits of your phone number. If that does not work, do the following at the **Enter Unlock Code** prompt:

	Press	To
1	☰	go to the unlock code bypass screen
2	keypad keys	enter your security code
3	**OK** (⌓)	submit your security code

If you forget your security code, SIM card PIN code, PIN2 code, or call barring password, contact your service provider.

Using the Phonebook

This section gives a brief description of basic phonebook operations.

Storing a Phone Number

Enter a phone number in the home screen, then press **STORE** (⌓) to create a phonebook entry with that number. Fill in the other fields to complete the entry.

Select **MORE** to store another number (for example, a work number) under the same **Name**.

Recording a Voice Name

When creating a phonebook entry, scroll to **Voice Name** and press **RECORD** (⌓). Press and release the voice key and say the entry's name (in 2 seconds). When prompted, press and release the voice key and repeat the name. Press **DONE** (⌓) to store the voice name.

Note: *This option is not available for entries stored on the SIM card.*

Dialling a Number

Press ⌓ > **Phonebook** > *entry to call*.

Voice Dialling a Number

Press and release the voice key, and say the entry's name (in 2 seconds).

Sorting Phonebook Entries

Press ☰ > **Phonebook** > **Setup** > **Sort by**, then select whether you want to sort the phonebook list by **Name**, **Speed No.**, **Voice Name**, or **Email**.

When sorting by name, you can view **All** numbers or just the **Primary** number for each name.

Viewing Entries By Category

Press ☰ > **Phonebook**, press ☰ > **Categories**, then select whether you want to view **All** entries, entries in a predefined category (**Business**, **Personal**, **General**, **VIPs**), or entries in a category you created.

Setting Picture Caller ID View

Press ☰ > **Phonebook**, press ☰ > **Setup** > **View by** > **Picture**.

Setting Up Your Phone

Storing Your Name and Phone Number

To store or edit user name and phone number information on your SIM card:

Find the Feature MENU > **Settings** > **Phone Status** > **My Tel. Numbers**

Shortcut: Press MENU # from the home screen to edit your name and phone number.

If you do not know your phone number, contact your service provider.

Setting the Time and Date

You must set the time and date to use the datebook.

Find the Feature MENU > **Settings** > **Initial Setup** > **Time and Date**

Setting a Ring Style

Your phone rings or vibrates to notify you of an incoming call or other event. This ring or vibration is called an *alert*.

You can select one of 5 different ring styles. The ring style indicator in the display shows the current ring style (see pages 31 and 34).

To set a ring style:

Find the Feature MENU > **Settings** > **Alert Styles** > **Ring Style**

	Press	To
1	⊙	scroll to the ring style
2	**SELECT** (⌐)	select the ring style

Each ring style contains settings for specific event alerts, ringer ID, and ringer and keypad volume. To change these settings, press ☰ > **More** > **Alert Styles** > *Style* **Detail**.

Setting Answer Options

You can use additional, alternative methods to answer an incoming call:

Multi-Key	answer by pressing any key
Open to Answer	answer by opening the flip

To activate or deactivate an answer option:

Find the Feature ☰ > **Settings** > **In-Call Setup** > **Answer Options**

	Press	To
1	⊙	scroll to **Multi-Key** or **Open to Answer**
2	**CHANGE** (⌐)	select the option
3	⊙	scroll to **On** or **Off**
4	**SELECT** (⌐)	confirm the setting

Setting a Wallpaper Image

You can set a photo, picture, or animation as a wallpaper (background) image in your phone's home screen.

Find the Feature ☰ > **Settings** > **Personalise** > **Wallpaper**

	Press	To
1	⊙	scroll to **Picture**
2	**CHANGE** (⌐)	open the picture viewer
3	⊙ up or down	scroll to a picture/animation Scroll to **(None)** to turn off the wallpaper image.
4	**SELECT** (⌐)	select the image
5	⊙	scroll to **Layout**
6	**CHANGE** (⌐)	adjust the image layout
7	⊙	scroll to **Centre**, **Tile**, or **Fit-to-screen** **Centre** places the image in the centre of the display. **Tile** fills the display with adjacent copies of the image **Fit-to-screen** resizes the image, if necessary, to fit the display
8	**SELECT** (⌐)	confirm the layout setting
9	**BACK** (⌐)	save wallpaper settings

Setting a Screen Saver Image

You can set a photo, picture or animation as a screen saver image.

The screen saver image is displayed when the flip is open and no activity is detected for a period of time. The image is shrunk to fill the display, if necessary. An animation repeats for 1 minute, then the first frame of the animation is displayed.

Tip: Turn off the screen saver to extend battery life.

Find the Feature ⌐ > **Settings** > **Personalise** > **Screen Saver**

	Press	To
1	⊙	scroll to **Picture**
2	**CHANGE** (⌐)	open the picture viewer
3	⊙ up or down	scroll to a picture/animation Scroll to **(None)** to turn off the screen saver image.
4	**SELECT** (⌐)	select the image
5	⊙	scroll to **Delay**
6	**CHANGE** (⌐)	set the delay interval
7	⊙	scroll to the inactivity interval that triggers the screen saver
8	**SELECT** (⌐)	confirm the delay setting
9	**BACK** (⌐)	save screen saver settings

Setting Display Contrast

Find the Feature ☰ > **Settings** > **Initial Setup** > **Contrast**

Setting Display Colour

You can select the colour palette that your phone uses to display indicators, highlights, and soft key labels.

Find the Feature ☰ > **Settings** > **Personalise** > **Colour Style**

Adjusting the Backlight

You can set the amount of time that the display and keypad backlights remain on, or turn off backlights to extend battery life.

Find the Feature > **Settings** > **Initial Setup** > **Backlight**

Calling Features

For basic instructions on how to make and answer calls, see page 21.

Changing the Active Line

Change the active phone line to make and receive calls from your other phone number.

Note: *This feature is available only for dual-line enabled SIM cards.*

Find the Feature > **Settings** > **Phone Status** > **Active Line**

The active line indicator in the display shows the current active phone line. See page 31.

Redialling a Number

	Press	To
1		view the dialled calls list
2		scroll to the entry you want to call
3		redial the number

Using Automatic Redial

When you receive a busy signal, your phone displays **Call Failed**, **Number Busy**.

With automatic redial, your phone automatically redials the number. When the call goes through, your phone

rings or vibrates one time, displays **Redial Successful**, and then connects the call.

You must turn on automatic redial to use the feature. To turn automatic redial on or off:

Find the Feature	> **Settings** > **Initial Setup** > **Auto Redial**

When automatic redial is turned off, you can manually activate the feature to redial a phone number. When you hear a busy signal and see **Call Failed, Number Busy**:

Press	**To**
or **RETRY** ( )	activate automatic redial

Using Caller ID

Incoming Calls

Calling line identification (caller ID) displays the phone number for incoming calls in your phone's external and internal displays.

The phone displays the caller's name (and picture, if available) when the name is stored in your phonebook, or **Incoming Call** when caller ID information is not available.

You can also set your phone to play a distinctive ringer ID and/or light ID for specific entries stored in your phonebook..

Outgoing Calls

You can show or hide your phone number as an ID for the calls that you make.

Find the Feature > **Settings** > **In-Call Setup** > **My Caller ID**

You can override the default caller ID setting when you make a call. While dialling (with digits visible in the display):

Press	To
> **Hide ID/Show ID**	hide or show your caller ID for the next call

Turning Off a Call Alert

You can turn off your phone's incoming call alert before answering the call.

Press	To
either volume key	turn off the alert

Calling an Emergency Number

Your service provider programs one or more emergency phone numbers, such as 999, that you can call under any circumstances, even when your phone is locked or the SIM card is not inserted.

Note: *Emergency numbers vary by country. Your phone's preprogrammed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.*

	Press	To
1	keypad keys	dial the emergency number
2		call the emergency number

Dialling International Numbers

Press and hold 0+ to insert the local international access code (+) for the country from which you are calling.

Viewing Recent Calls

Your phone keeps lists of the calls you recently received and dialled, even if the calls did not connect. The lists are sorted from newest to oldest entries. The oldest entries are deleted as new ones are added.

Shortcut: Press ↑ to go directly to the dialled calls list from the home screen.

Find the Feature MENU > **Recent Calls**

	Press	To
1	⊙	scroll to **Received Calls** or **Dialled Calls**
2	**SELECT** (⌐)	select the list
3	⊙	scroll to an entry ***Note:*** *✓ means the call connected.*
4	↑	call the entry's number **Tip:** Press and hold ↑ for 2 seconds to send the number as DTMF tones during a call.
	or	
	VIEW (⌐)	view entry details
	or	
	MENU	open the **Last Calls Menu** to perform other procedures

The **Last Calls Menu** can include the following options:

Option	Description
Store	Create a phonebook entry with the number in the **No.** field.
Delete	Delete the entry.
Delete All	Delete all entries in the list.
Hide ID/Show ID	Hide or show your caller ID for the next call.
Send Message	Open a new text message with the number in the **To** field.
Add Digits	Add digits after the number.
Attach Number	Attach a number from the phonebook or recent call lists.
Send Tones	Send the number to the network as DTMF tones. ***Note:*** *This option appears only during a call.*
Talk then Fax	Talk and then send a fax in the same call. .

Returning an Unanswered Call

Your phone keeps a record of your unanswered calls, and displays:

- the (missed call) indicator
- **X Missed Calls**, where **X** is the number of missed calls

	Press	To
1	**VIEW** (⌓)	see the received calls list

	Press	To
2		select a call to return
3		make the call

Using the Notepad

Your phone stores the most recent string of digits entered on the keypad in a temporary memory location called the *notepad*. This can be a phone number that you called, or a number that you entered but did not call. To retrieve the number stored in the notepad:

Find the Feature > **Recent Calls** > **Notepad**

Press	To
	call the number
or	
	open the **Dialling Menu** to attach a number or insert a special character
or	
STORE ( )	create a phonebook entry with the number in the **No.** field

Attaching a Number

While dialling (with digits visible in the display):

Press	To
> **Attach Number**	attach a number from the phonebook or recent call lists

Calling With Speed Dial

Each entry you store in your phonebook is assigned a unique *speed dial* number that identifies the location where the entry is stored in phone memory or on the SIM card.

Tip: To see an entry's speed dial number, press MENU > **Phonebook**, scroll to the entry, press **VIEW** (OK).

To speed dial a phonebook entry:

	Press	To
1	keypad keys	enter the speed dial number for the entry you want to call
2	#	submit the number
3	SEND	call the entry

Calling With 1-Touch Dial

To call phonebook entries 1 to 9, just press and hold the single-digit speed dial number for 1 second.

Tip: You must specify which phone number list you want to use with this feature: phone memory phonebook,.

Using Voicemail

Voicemail messages that you receive are stored on the network. To listen to your messages, you must call your voicemail phone number.

Note: *Your service provider may include additional information about using this feature.*

Listening to Voicemail Messages

Find the Feature > **Messages** > **VoiceMail**

The phone calls your voicemail phone number. If no voicemail number is stored, your phone prompts you to store one.

Receiving a Voicemail Message

When you receive a voicemail message, your phone displays the (voicemail message) indicator and a **New VoiceMail** notification.

Press	To
CALL ( )	listen to the message

The phone calls your voicemail phone number. If no voicemail number is stored, your phone prompts you to store one.

Storing Your Voicemail Number

If necessary, use the following procedure to store your voicemail phone number on your phone. Usually, your service provider has already done this for you.

Find the Feature > **Messages**
> **VoiceMail Setup**

	Press	To
1	keypad keys	enter your voicemail number
2	**OK** ( )	store the number

Using Call Waiting

When you are on a call, an alert tone sounds to indicate that you have received a second call.

	Press	To
1		answer the new call
2	**SWITCH** (⌓)	switch between calls
	or	
	LINK (⌓)	connect the 2 calls
	or	
	☰ > **End Call On Hold**	end the call on hold

You must turn on call waiting to use the feature.To turn call waiting on or off:

Find the Feature ☰ > **Settings** > **In-Call Setup** > **Call Waiting**

Putting a Call On Hold

Press	To
HOLD (⌓) (if available) or ☰ > **Hold**	put the call on hold

Transferring a Call

You can announce that you are transferring an active call to another party, or you can directly transfer the call.

Announce the Call Transfer

Find the Feature MENU > **Hold**

	Press	To
1	keypad keys	dial the number where you are transferring the call
2	SEND	call the number and speak to the person who answers
3	MENU	open the menu
4	NAV	scroll to **Transfer**
5	**SELECT** (OK)	select **Transfer**
6	**OK** (OK)	confirm the transfer.

Do Not Announce the Call Transfer

Find the Feature MENU > **Transfer**

	Press	To
1	keypad keys	dial the number where you are transferring the call
2	SEND	transfer the call

Shortcuts
Change ringer alert: Open flip, press down volume key to decrease volume, then switch to vibrate alert, then silent alert. Press up volume key to reset ring alert and increase volume.
Display my phone number: Press MENU #+
Go to dialled calls list: Press 0
Exit menu system: Press BACK

Feature Quick Reference

Use this chapter to locate features on your phone that are not described in this guide. For more detailed information, see the *Reference Guide*.

Calling Features

Feature	Description
Conference Call	During a call: MENU > **Hold**, dial next number, press 1, press **LINK** (OK)
Call Diverting	Set up or cancel call diverting: MENU > **Settings** > **Call Divert**
Call Barring	Restrict outgoing or incoming calls: MENU > **Settings** > **Security** > **Call Barring**

Messages

Feature	Description
Send Short Text Message	Send a short text message: MENU > **Messages** > **Create Message** > **New Short Message**
Send Multimedia Message	Send a multimedia message: MENU > **Messages** > **Create Message** > **New Multimedia Msg**

Feature	Description
Send Letter	Send a multimedia letter: > **Messages** > **Create Message** > **New Letter**
Use MMS Template	Open an MMS template with preloaded media: > **Messages** > **Create Message** > **MMS Templates**
Store Message Objects	Go to a multimedia message slide, or highlight an object in a letter, then: > **Store**

Instant Messaging

Feature	Description
Log In	Log in to instant messaging: > **IM** > **Log In**
Find Others Online	After you sign on: Select **Contact List** to see a list of other users
Start Conversation	Start a conversation: From your **Contact List**, highlight a name in **Online Contacts**, press **SEND IM** ()
Open Active Conversation	Open a conversation in progress: From your **Contact List**, highlight a name in **Conversations**, press **VIEW** ()

Feature	Description
End Conversation	From the conversation display: MENU > **End Conversation**
Log Out	Log out of instant messaging: Select **Log Out** from the **IM Online** menu

Chat

Feature	Description
Start Chat	Start a new chat session: MENU > **Tools** > **Chat** MENU > **New Chat**
Receive Chat Request	When you receive a chat request: Press **ACCEPT** (OK) or **IGNORE** (BACK)
End Chat	During a chat session: MENU > **End Chat**

Email

Feature	Description
Send Email Message	Send an email message: MENU > **Messages** > **Create Message** > **New Email**

Feature	Description
Receive Email Message	Read a new email message that you have received: Press **READ** (⌓)

Phonebook

Feature	Description
Create Entry	Create a new phonebook entry: ☰ > **Phonebook** ☰ > **New** > **Phone Number** or **Email Address**
Dial Number	Call a number stored in the phonebook: ☰ > **Phonebook** > *entry to call*
Voice Dial Number	Voice dial a number stored in the phonebook: Press and release the voice key, and say the entry's name (in 2 seconds)
Set Ringer ID for Entry	Assign a distinctive ringer alert to a phonebook entry: ☰ > **Phonebook** > *entry* ☰ > **Edit** > **Ringer ID** > *ringer name* ***Note:*** *This option is not available for entries stored on the SIM card.*
Set Category for Entry	Set the category for a phonebook entry: ☰ > **Phonebook** > *entry* ☰ > **Edit** > **Category** > *category name* ***Note:*** *This option is not available for entries stored on the SIM card.*
Group Mailing List	Create a group mailing list as a phonebook entry: ☰ > **Phonebook** ☰ > **New** > **Mailing List**

Feature	Description
Set Picture Caller ID View	View phonebook entries as text list, or with picture caller ID photos: MENU > **Phonebook** MENU > **Setup** > **View by** > *list view*
Sort Phonebook List	Set the order in which phonebook entries are listed: MENU > **Phonebook** MENU > **Setup** > **Sort by** > *sort order*
Set Primary Number	Set the primary number for a phonebook entry with multiple numbers: MENU > **Phonebook**, scroll to the entry, press MENU > **Set Primary** > *phone number*
Set Category View	Set phonebook category view: MENU > **Phonebook** MENU > **Categories** > *category view*
Set Category Light ID	Set a distinctive light pattern to be displayed when you receive calls from phonebook entries in a specific category: MENU > **Phonebook** MENU > **Categories**, scroll to the entry, press MENU > **Edit** > **Light ID** ***Note:*** *This option is not available for entries stored on the SIM card.*
1-Touch Dial	Set 1-touch dial to call entries stored in your phone memory phonebook or the SIM card phonebook: MENU > **Settings** > **Initial Setup** > **1-Touch Dial**

Personalising Features

Feature	Description
Ring Alert	Change the ring alert for an event: MENU > **Settings** > **Alert Styles** > *Style* **Detail** > *event name*
Ringer IDs	Activate distinctive ringer alerts assigned to phonebook entries: MENU > **Settings** > **Alert Styles** > *Style* **Detail** > **Ringer IDs**
Ring Volume	Set ringer volume: MENU > **Settings** > **Alert Styles** > *Style* **Detail** > **Ring Volume**
Keypad Volume	Set keypad keypress volume: MENU > **Settings** > **Alert Styles** > *Style* **Detail** > **Key Volume**
Clock View	Display an analogue clock or digital time readout in the home screen: MENU > **Settings** > **Personalise** > **Home Screen** > **Clock**
Menu View	Display the main menu as graphic icons or as a text-based list: MENU > **Settings** > **Personalise** > **Main Menu** > **View**
Main Menu	Reorder your phone's main menu: MENU > **Settings** > **Personalise** > **Main Menu** > **Reorder**
Show or Hide Menu Icons	Show or hide menu feature icons in the home screen: MENU > **Settings** > **Personalise** > **Home Screen** > **Home Keys** >**Icons**

Feature	Description
Change Soft Keys & Menu Icons	Change soft key labels and menu feature icons in the home screen: MENU > **Settings** > **Personalise** > **Home Keys**
Shortcuts	Create a shortcut to a menu item: Highlight the menu item, then press and hold MENU Select a shortcut: MENU > **Shortcuts** > *shortcut name*

Menu Features

Feature	Description
Language	Set menu language: MENU > **Settings** > **Initial Setup** > **Language**
Master Reset	Reset all options *except* unlock code, security code, lifetime timer: MENU > **Settings** > **Initial Setup** > **Master Reset**
Master Clear	Reset all options *except* unlock code, security code, lifetime timer. Clear all user settings and entries *except* SIM card information: MENU > **Settings** > **Initial Setup** > **Master Clear**

Dialling Features

Feature	Description
Fixed Dial	Turn fixed dialling on or off: MENU > **Settings** > **Security** > **Fixed Dial** Use the fixed dial list: MENU > **Tools** > **Dialling Services** > **Fixed Dial**

Feature	Description
Service Dial	Dial service phone numbers: > **Tools** > **Dialling Services** > **Service Dial**
Quick Dial	Dial pre-programmed phone numbers: > **Tools** > **Dialling Services** > **Quick Dial**
DTMF Tones	Activate DTMF tones: > **Settings** > **Initial Setup** > **DTMF** Send DTMF tones during a call: Press number keys Send stored numbers as DTMF tones during a call: Highlight a number in the phonebook or recent call lists, then press > **Send Tones**

Call Monitoring

Network connection time is the elapsed time from the moment you connect to your service provider's network to the moment you end the call by pressing . This time includes busy signals and ringing.

The amount of network connection time you track on your resettable timer may not equal the amount of time for which you are billed by your service provider. For billing information, please contact your service provider directly.

Feature	Description
Call Times	View call timers: > **Recent Calls** > **Call Times**

Feature	Description
In-Call Timer	Display time or cost information during a call: > **Settings** > **In-Call Setup** > **In-Call Timer**
Call Cost	View call cost trackers: > **Recent Calls** > **Call Cost**

Handsfree Features

Note: *The use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.*

Feature	Description
Speaker-phone	Activate a connected external speakerphone during a call: Press **SPEAKER** ( ) (if available) or > **Spkrphone On**
Auto Answer (car kit or headset)	Automatically answer calls when connected to a car kit or headset: > **Settings** > **Car Settings** or **Headset** > **Auto Answer**
Ringer Options (headset)	Set phone or headset to sound the call alert: > **Settings** > **Headset** > **Ringer Options**
Voice Dial (headset)	Enable voice dial with headset send/end key: > **Settings** > **Headset** > **Voice Dial**

Feature	Description
Auto Handsfree (car kit)	Automatically route calls to a car kit when connected: > **Settings** > **Car Settings** > **Auto Handsfree**
Power-Off Delay (car kit)	Set the phone to stay on for a period of time after the ignition is switched off: > **Settings** > **Car Settings** > **Power-Off Delay**
Charger Time (car kit)	Charge the phone for a period of time after the ignition is switched off: > **Settings** > **Car Settings** > **Charger Time**

Data and Fax Calls

Feature	Description
Send Data or Fax	Connect your phone to the device, then place the call through the device application
Receive Data or Fax	Connect your phone to the device, then answer the call through the device application
Talk Then Fax	Connect your phone to the device, enter the number, press > **Dialling Menu** > **Talk Then Fax**, then press to make the call

Bluetooth™ Wireless Connections

Feature	Description
Make Phone Visible to Other Device	Allow an unknown Bluetooth device to discover your phone: MENU > **Settings** > **Connection** > **Bluetooth Link** > **Setup** > **Find Me**
Connect to Recognised Device	Connect to a recognised handsfree device: MENU > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > *device name*
Disconnect From Device	Disconnect from a device: Highlight the device name and press **DROP** (-)
Switch to Device During Call	Switch to a headset or car kit during a call: MENU > **Use Bluetooth**
Edit Device Properties	Edit the properties of a recognised device: Highlight the device name and press MENU > **Edit**
Set Bluetooth Options	Set your phone's Bluetooth options: MENU > **Settings** > **Connection** > **Bluetooth Link** > **Setup**

Network Features

Feature	Description
Network Settings	View network information and adjust network settings: MENU > **Settings** > **Network**

Personal Organiser Features

Feature	Description
Add Datebook Event	Add an event to the datebook: MENU > **Tools** > **Datebook** > *day* MENU > **New**
View Datebook Event	View or edit event details: MENU > **Tools** > **Datebook** > *day* > *event name*
Event Reminder	View event reminder: **VIEW** (OK) Dismiss event reminder: **EXIT** (CLR)
Set Alarm	Set an alarm: MENU > **Tools** > **Alarm Clock**
Turn Off Alarm	Turn off alarm: Press **DISABLE** (CLR) or POWER Set 8-minute delay: Press **SNOOZE** (OK)

Feature	Description
Create Voice Record	Create a voice record: Press and hold voice key, speak voice record, release voice key ***Note:*** *Recording phone calls is subject to varying laws regarding privacy and recording of conversations.*
Play Voice Record	Play back a voice record: MENU > **Tools** > **Voice Records** > *voice record*
Calculator	Calculate numbers: MENU > **Tools** > **Calculator**
Currency Converter	Convert currency: MENU > **Tools** > **Calculator** MENU > **Exchange Rate** Enter exchange rate, press **OK** (OK), enter amount, press MENU > **Convert Currency**

Security

Feature	Description
SIM PIN	Lock or unlock the SIM card: MENU > **Settings** > **Security** > **SIM PIN** **Caution:** If you enter an incorrect PIN code 3 times in a row, your SIM card is disabled and your phone displays **SIM Blocked**.
Lock Application	Lock phone applications: MENU > **Settings** > **Security** > **Lock Application**

News and Entertainment

Feature	Description
Launch Micro-Browser	Start a micro-browser session: MENU > **Web Access** > **Browser**
Download Objects from Web Page	Download a picture, sound, or phone theme from a Web page: highlight the file, press **SELECT** (OK), press **STORE** (OK)
Web Sessions	Select or create a Web session: MENU > **Web Access** > **Web Sessions**
Apply Phone Theme	Apply a grouped set of image and sound files to your phone: MENU > **Multimedia** > **Themes** > *theme*
Download Game or Application	Download a Java game or application: MENU > **Web Access** > **Browser**, highlight the application, press **SELECT** (OK), press **DWNLOAD** (OK)
Launch Game or Application	Launch a Java game or application: MENU > **Games & Apps**, highlight the application, press **SELECT** (OK)
Manage Pictures	Manage pictures and animations: MENU > **Multimedia** > **Pictures**

Feature	Description
Manage Sounds	Manage ring tones, sounds that you have composed or downloaded: MENU > **Multimedia** > **Sounds**
Manage Video Clips	Manage video clips: MENU > **Multimedia** > **Videos**
Edit Sounds With MotoMixer	Edit MIDI-based sound files that you can use with your phone: MENU > **Multimedia** > **MotoMixer** > [**New Mix**] or *mix file name*
Create Ring Tones	Create ring tones that you can use with your phone: MENU > **Settings** > **Alert Styles** > **My Tones** > [**New Tone**]
Camera	Adjust light level and other settings for the integrated camera: MENU > **Multimedia** > **Camera**

Warranty Information

Motorola guarantees you, the original purchaser, the Personal handset and accessories which you have purchased from an authorised Motorola dealer (the “Products”), to be in conformance with the applicable Motorola specifications current at the time of manufacture for a term of [1] year from date of purchase of the Product(s) (Warranty Term).

You must inform Motorola of the lack of conformity to the applicable specifications of any of the Products within a period of two (2) months from the date on which you detect a defect in material, workmanship or lack of conformity and in any event within a term not to exceed the Warranty Term, by submitting the Product for service to Motorola. Motorola shall not be bound by Product related statements not directly made by Motorola nor any warranty obligations applicable to the seller.

A list of the Motorola Call Centre numbers is enclosed with this Product.

During the Warranty term, Motorola will, at its discretion and without extra charge, as your exclusive remedy, repair or replace your Product which does not comply with this warranty; or failing this, to reimburse the price of the Product but reduced to take into account the use you have had of the Product since it was delivered. This warranty will expire at the end of the Warranty Term.

This is the complete and exclusive warranty for a Motorola Personal handset and accessories and in lieu of all other warranties, terms and conditions, whether express or implied.

Where you purchase the product other than as a consumer, Motorola disclaims all other warranties, terms and conditions express or implied, such as fitness for purpose and satisfactory quality.

In no event shall Motorola be liable for damages nor loss of data in excess of the purchase price nor for any incidental special or consequential damages* arising out of the use or inability to use the Product, to the full extent such may be disclaimed by law.

This Warranty does not affect any statutory rights that you may have if you are a consumer, such as a warranty of satisfactory quality and fit for the purpose for which products of the same type are normally used under normal use and service, nor any rights against the seller of the Products arising from your purchase and sales contract.

(*)including without limitation loss of use, loss of time, loss of data, inconvenience, commercial loss, lost profits or savings.

How to get warranty service?

In most cases the authorised Motorola dealer which sold and/or installed your Motorola Personal handset and original accessories will honour a warranty claim and/or provide warranty service. Alternatively, for further information on how to get warranty service please contact either the customer service department of your service provider or Motorola's call centre at the telephone numbers below for your country.

In order to claim the warranty service you must return the Personal handset and/or accessories in question to Motorola. Please avoid leaving any supplementary items like USIM cards. The Product should also be accompanied by a label with your name, address, and telephone number; name of operator and a description of the problem. In the case of vehicular installation, the vehicle in which the Personal handset is installed should be driven to the Authorised Repair Centre, as analysis of any problem may require inspection of the entire vehicular installation.

In order to be eligible to receive warranty service, you must present your receipt of purchase or a comparable substitute proof of purchase bearing the date of purchase. The handset should also clearly display the original compatible electronic serial number (IMEI) and mechanic serial number [MSN]. Such information is contained with the Product.

Conditions

This warranty will not apply if the type or serial numbers on the Product has been altered, deleted, duplicated, removed, or made illegible. Motorola reserves the right to refuse free-of-charge warranty service if the requested documentation can not be presented or if the information is incomplete, illegible or incompatible with the factory records.

Repair, at Motorola's option, may include reflashing of software, the replacement of parts or boards with functionally equivalent, reconditioned or new parts or boards. Replaced parts, accessories, batteries, or boards are warranted for the balance of the original warranty time period. The Warranty Term will not be extended. All original accessories, batteries, parts, and Personal handset equipment that have been replaced shall become the property of Motorola. Motorola does not warrant the installation, maintenance or service of the products, accessories, batteries or parts.

Motorola will not be responsible in any way for problems or damage caused by any ancillary equipment not furnished by Motorola which is attached to or used in connection with the Products, or for operation of Motorola equipment with any ancillary equipment and all such equipment is expressly excluded from this warranty.

When the Product is used in conjunction with ancillary or peripheral equipment not supplied by Motorola, Motorola does not warrant the operation of the Product/peripheral combination and Motorola will not honour any warranty claim where the Product is used in such a combination and it is determined by Motorola that there is no fault with the Product. Motorola specifically disclaims any responsibility for any damage, whether or not to Motorola equipment, caused in any way by the use of the Personal handset, accessories, software applications and peripherals (specific examples include, but are not limited to: batteries, chargers, adapters, and power supplies) when such accessories, software applications and peripherals are not manufactured and supplied by Motorola.

What is not covered by the warranty

This warranty is not valid if the defects are due to damage, misuse, tampering, neglect or lack of care and in case of alterations or repair carried out by unauthorised persons.

1 Defects or damage resulting from use of the Product in other than its normal and customary manner.

2 Defects or damage from misuse, access to incompatible sources, accident or neglect.

3 Defects or damage from improper testing, operation, maintenance, installation, adjustment, unauthorised software applications or any alteration or modification of any kind.

4 Breakage or damage to antennas unless caused directly by defects in material or workmanship.

5 Products disassembled or repaired in such a manner as to adversely affect performance or prevent adequate inspection and testing to verify any warranty claim.

6 Defects or damage due to range, coverage, availability, grade of service, or operation of the cellular system by the cellular operator.

7 Defects or damage due to moisture, liquid or spills of food.

8 Control unit coil cords in the Product that are stretched or have the modular tab broken.

9 All plastic surfaces and all other externally exposed parts that are scratched or damaged due to customer normal use.

10 Leather cases (which are covered under separate manufacturer's warranties).

11 Products rented on a temporary basis.

12 Periodic maintenance and repair or replacement of parts due to normal wear and tear.

Note: *The talk-time, stand-by time and total life cycle of a Motorola rechargeable battery for your Personal handset will depend on usage conditions and network configurations. As a consumable product, the specifications indicate that you should be able to obtain optimum performance for your Motorola Personal handset within the first six months from date of purchase and up-to (200) charges.*

The warranty for Motorola rechargeable batteries becomes void if (i) the batteries are charged other than by Motorola approved battery chargers specified for the charging of the battery, (ii) any of the seals on the battery are broken or show evidence of tampering, (iii) the battery is used in equipment or service other than the cellular telephone equipment for which it is specified.

Specific Absorption Rate Data

This model handset meets international standards for exposure to radio waves

Your mobile handset is a radio transmitter and receiver. It is designed and manufactured not to exceed limits for exposure to radio frequency (RF) energy. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organisations through periodic and thorough evaluation of scientific studies. The guidelines include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for mobile handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. Under the guidelines for your handset model, the SAR limit is 2.0 W/kg.* Tests for SAR are conducted in accordance with CENELEC** testing procedures using standard operating positions with the handset transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR of the handset while operating can be well below the maximum value. This is because the handset is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a base station, the lower the power output of the handset.

Before a handset model is available for sale to the public, it is tested to confirm compliance with the guidelines. The tests are performed in positions and locations (e.g., at the ear and worn on the body) that conform to a uniform testing methodology determined by an expert standards body. The SAR value for this model phone was not available when this publication went to press.

For further information, please refer to http://www.hellomoto.com/sar

While there may be differences between the SAR levels of various handsets and at various positions, they all meet the governmental requirements for safe exposure. Please note that modifications to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.

---

* The SAR limit recommended by international guidelines (ICNIRP) for mobile handsets used by the public is 2.0 watts/kilogram (W/kg) averaged over ten grams of tissue. The limit incorporates a substantial margin for safety to give additional protection for the public and to account for any variations in measurements.

** CENELEC is a European Union standards body.

*** Additional related information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product.
